USA.GOV UPGRADES

USA.gov has launched the official [U.S. Government Channel on YouTube](#), featuring more than 200 videos from 25 agencies. USA.gov has also updated its presence on [Facebook](#) and is seeing a rapidly growing number of followers on [Twitter](#).

USA.gov is using new media to encourage public participation in government and improve the sharing of information and services.

Look for USA.gov's links to Facebook, YouTube, and Twitter in the "Connect with Government" box on the right side of the [USA.gov Home Page](#).

NEW PASSPORT RESTRICTIONS

Effective, June 1st, United States citizens entering the country from Canada, Mexico, Bermuda, and the Caribbean must present a valid passport or secure I.D. to re-enter the country.

Children under 16 are exempt but must present their birth certificate or other proof of U.S. citizenship such as a naturalization certificate or citizenship card.

By implementing this requirement, the U.S. government will be completing the land and sea phase of the Western Hemisphere Travel Initiative (WHTI). The WHTI also puts into action the [U.S. Customs and Border Protection's Trusted Travel Program](#), which provides expedited travel for pre-approved, low-risk travelers.

NEW BENEFITS WILL MAKE FEDERAL STUDENT LOAN PAYMENTS MORE MANAGEABLE TO REPAY

This week new benefits will take effect that will make college more accessible and affordable for millions of Americans. The benefits are all kicking in as part of the College Cost Reduction and Access Act. The legislation invested \$20 billion in college assistance for families, at no additional cost to taxpayers. It is the single largest investment to help Americans pay for college since the GI Bill.

The new benefits include:

Cheaper interest rates on need-based (subsidized) federal student loans. On July 1, the interest rates on new subsidized federal student loans will decrease from 6 percent to 5.6 percent. This is the second of four annual cuts in this interest rate; it will continue to drop until it reaches 3.4 percent in 2011.

Reasonable and affordable monthly college loan payments for borrowers. A new Income-Based Repayment program will go into effect that caps borrowers' monthly loan payments at just 15 percent of their discretionary income. Any current or future borrower whose loan payment exceeds 15 percent of their discretionary income is eligible.

Higher Pell Grant scholarships that cover the average tuition at public universities. Due to funding provided by both the College Cost Reduction and Access Act and the American Recovery and Reinvestment Act, the maximum Pell Grant scholarship for the 2009-2010 school year will be \$5,350 – more than \$600 above last year's award.

In addition, students and borrowers will be able to continue to take advantage of other recent programs enacted under the law. To encourage more students to become teachers, the law provides up-front tuition assistance, known as TEACH Grants, of \$4,000 a year – for a maximum

of \$16,000 – to students who commit to teaching high need subject areas in high need schools for four years after graduation. Graduates who enter into public service careers, such as teachers, public defenders and prosecutors, firefighters, nurses, non-profit workers, and more, will be eligible for complete loan forgiveness after 10 years of qualifying public service and loan payments.

Federal Grant and Cooperative Agreement Program Summaries

U.S. Department of Agriculture

[Broadband Technology Opportunities Program Notice of Funds Availability-Fact Sheet](http://www.nystar.state.ny.us/stimulus/NOFABtop.pdf)

<http://www.nystar.state.ny.us/stimulus/NOFABtop.pdf>

NTIA and the USDA's Rural Utilities Service (RUS) jointly issued a Notice of Funds Availability (NOFA) and solicitation of applications on July 1, 2009, describing the availability of funds and application requirements for the broadband initiatives contained in the American Recovery and Reinvestment Act of 2009-NTIA's Broadband Technology Opportunities Program (BTOP), and the RUS Broadband Initiatives Program (BIP). BTOP provides grants to support the deployment of broadband infrastructure in unserved and underserved areas, to enhance broadband capacity at public computer centers, and to encourage sustainable adoption of broadband service. Through this support, BTOP will also advance the Recovery Act's objectives to spur job creation and stimulate long-term economic growth and opportunity.

Approximately \$1.6 billion will be available for this program.

Applications will be accepted between July 14-August 14, 2009.

Single Family Housing Guaranteed Program - Record High Volume May Impact Approval Turnaround

Rural Development has an on-going commitment to the success of the Single Family Housing Guaranteed Program (SFHGLP). Rural Development state and field offices embrace the importance of assisting lenders in expediting all requests for loan approvals (Conditional Commitments) and Loan Note Guarantees in a timely and accurate manner. Recognizing many Rural Development state and field offices are encountering record high volume of new loan activity, delivery of new loan approvals within the standard 48-hour turnaround time may not be met by Rural Development in all cases. Rural Development staff must review each loan commitment request to determine eligibility for the SFHGLP as part of the quality control process. Rural Development staff must also issue final Loan Note Guarantees on these same files after loan closing, upon receipt of the Lender's closing package.

Lenders are asked to take note of this possible delay in loan approvals and should plan accordingly when scheduling loan closings and executing interest rate locks. In order to meet the closing date of your transaction, we ask that you please send your complete application packages to Rural Development as far in advance of the anticipated closing date as is possible. Late submissions of application packages may place your tentative closing dates in jeopardy during this time of high demand for the program.

Please distribute this communication to your origination and processing staff, real estate agents, builders and others that assist you in delivering the SFHGLP.

We appreciate your shared commitment to the success and effective delivery of the SFHGLP.

Questions regarding this communication can be directed to the Single Family Housing Guaranteed Loan Division at 202.720.1452.

Cost Sharing or Matching Requirement:	No

Eligible Applicants

- County governments
- City or township governments
- Native American tribal governments (Federally recognized)
- Public housing authorities/Indian housing authorities
- Native American tribal organizations (other than Federally recognized tribal governments)
- Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
- Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
- Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Faith-Based and Community Organizations

Description

The Rural Housing Service (RHS) announces that it is soliciting applications under its Housing Preservation Grant (HPG) program. The HPG program is a grant program which provides qualified public agencies, private nonprofit organizations, which may include but not be limited to Faith-Based and Community Organizations, and other eligible entities grant funds to assist very low- and low-income homeowners in repairing and rehabilitating their homes in rural areas. In addition, the HPG program assists rental property owners and cooperative housing complexes in repairing and rehabilitating their units if they agree to make such units available to low- and very low-income persons. This action is taken to comply with Agency regulations found in 7 CFR part 1944, subpart N, which require the Agency to announce the opening and closing dates for receipt of preapplications for HPG funds from eligible applicants. The intended effect of this Notice is to provide eligible organizations notice of these dates.

CSREES

Multicultural Scholars Grants Program

Document Type:	Grants Notice
Funding Opportunity Number:	USDA-CSREES-HEMS-002301
Opportunity Category:	Discretionary
Posted Date:	May 21, 2009
Creation Date:	May 21, 2009
Original Closing Date for Applications:	Jul 28, 2009
Current Closing Date for Applications:	Jul 28, 2009
Archive Date:	Aug 29, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Education
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$981,000
Award Ceiling:	\$480,000
Award Floor:	\$20,000
CFDA Number(s):	10.220 -- Higher Education Multicultural Scholars Program
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Public and State controlled institutions of higher education
Private institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Applications may be submitted by: (1) land-grant institutions, (2) colleges and universities having significant minority enrollments and a demonstrable capacity to carry out the teaching of food and agricultural sciences, and (3) other colleges and universities having a demonstrable capacity to carry out the teaching of food and agricultural sciences. Research foundations maintained by an eligible college or university are eligible to submit baccalaureate or Doctor of Veterinary Medicine training proposals under this Request for Application. Individual students may NOT apply to this program to support their academic training. The anticipated award date is January 15, 2010. Applicants should be institutions that confer the Doctor of Veterinary Medicine degree or a Baccalaureate degree in at least one of the Program Areas of Emphasis. Awards are made to eligible colleges and universities. Individuals seeking support to further their undergraduate education or Doctor of Veterinary Medicine training are not eligible to apply for these grants.

Description

The purpose of this competitive undergraduate scholarship grant program is to increase the multicultural diversity of the food and agricultural scientific and professional workforce, and advance the educational achievement of all Americans by providing competitive grants to colleges and universities. This program solicits applications to train students in the Emphasis Areas of (1) Veterinary Medicine (First Professional Degree in Veterinary Medicine); (2) Agricultural Sciences and Engineering for Bioenergy; (3) Natural Resources Sciences Training; (4) Human Sciences Training; (5) Food Science and Human Nutrition Training; and (6) Agrosecurity Science Training. Applications are sought for student training that: (i) will prepare graduates to meet the demand for highly qualified personnel entering the workforce in the food and agricultural sciences domain; (ii) will pipeline more undergraduates into graduate education in the food and agricultural sciences; (iii) will address the substantial gap between White, Latino and African American populations entering graduate schools to enable the American system of higher education to remain competitive with the rest of the world; (iv) will promote students' success in food and agricultural science disciplines at the undergraduate/DVM level; and (v) will focus on student learning, e.g., academic preparation, social support structure (tutoring, mentoring, experiential opportunities in research and study abroad), and professional mentoring to ensure matriculation and entry into food and agricultural sciences areas of graduate education or the workforce. Also, Special Experiential Learning (SEL) opportunities to support eligible USDA Multicultural Scholars to conduct research or to undertake studies at sites within or outside of the United States. SEL awards for eligible USDA Multicultural Scholars will only be available as provided for within this announcement.

Business and Cooperative Programs

Renewable Energy Systems and Energy Efficiency Improvements Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RDBCP-09-REAP-RES-EEI
Opportunity Category:	Mandatory
Posted Date:	May 29, 2009
Creation Date:	May 29, 2009
Original Closing Date for Applications:	Jul 31, 2009
Current Closing Date for Applications:	Jul 31, 2009
Archive Date:	Aug 30, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Other (see text field entitled "Explanation of Other Category of Funding Activity" for clarification)
Category Explanation:	Food, Conservation, and Energy Act of 2008
Expected Number of Awards:	1100
Estimated Total Program Funding:	\$51,600,000
Award Ceiling:	\$500,000
Award Floor:	\$1,500
CFDA Number(s):	10.868 -- Rural Energy for America Program
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligible applicants are agricultural producers and rural small businesses. All agricultural producers, including farmers and ranchers, who gain 50% or more of their gross income from the agricultural operations are eligible. Small businesses that are located in a rural area can also apply. Rural electric cooperatives may also be eligible to apply. Additional Information on Eligibility: Citizenship - To be eligible, applicants must be individuals or entities at least 51 percent owned by persons who are either: 1) citizens of the United States (U.S.), the Republic of Palau, the Federated States of Micronesia, the Republic of the Marshall Islands, or American Samoa; or 2) legally admitted permanent residents residing in the U.S. Project - The project must be the purchase and installation or construction of a renewable energy system or energy efficiency improvement. Eligible

projects include: retrofitting lighting or insulation, or purchasing or replacing equipment with more efficiency units. Eligible renewable energy projects include projects that produce energy from wind, solar, biomass, geothermal, hydro power and hydrogen-based sources. All projects must be located in a rural area, must be technically feasible, and must be owned by the applicant. Legal authority and responsibility - Each applicant must have, or obtain, the legal authority necessary to carry out the purpose of the grant.

Description

The Rural Energy for America Program will provide funds to agricultural producers and rural small businesses to purchase and install renewable energy systems and make energy efficiency improvements. The grants are awarded on a competitive basis and can be up to 25% of total eligible project costs. Grants are limited to \$500,000 for renewable energy systems and \$250,000 for energy efficiency improvements. Grant requests as low as \$2,500 for renewable energy systems and \$1,500 for energy efficiency improvements will be considered. At least 20% of the grant funds awarded must be for grants of \$20,000 or less.

New Era Rural Technology Competitive Grants Program (RTP) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	USDA-CSREES-RTP-002295
Opportunity Category:	Discretionary
Posted Date:	Jun 05, 2009
Creation Date:	Jun 05, 2009
Original Closing Date for Applications:	Jul 20, 2009
Current Closing Date for Applications:	Jul 20, 2009
Archive Date:	Aug 19, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Agriculture Education Employment, Labor and Training Energy Environment
Category Explanation:	
Expected Number of Awards:	25
Estimated Total Program Funding:	\$750,000
Award Ceiling:	\$300,000
Award Floor:	\$10,000

CFDA Number(s): 10.314 -- NEW ERA RURAL TECHNOLOGY
COMPETITIVE GRANTS PROGRAM
Cost Sharing or Matching Requirement: No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Applications may be submitted by either: (1) public or private nonprofit community colleges, or (2) advanced technological centers, either of which must: a. be located in a rural area (see definition in Part VIII, E.); b. have been in existence as of June 18, 2008; c. participate in agricultural or bioenergy research and applied research; d. have a proven record of development and implementation of programs to meet the needs of students, educators, and business and industry to supply the agriculture-based, renewable energy or pulp and paper manufacturing fields with certified technicians, as determined by the Secretary; and e. have the ability to leverage existing partnerships and occupational outreach and training programs for secondary schools, 4-year institutions, and relevant nonprofit organizations.

Description

Purpose: The RTP will make grants available for technology development, applied research, and/or training, with a focus on rural communities, to aid in the development of a workforce for bioenergy, pulp and paper manufacturing, or agriculture-based renewable energy. Please refer to Part VIII (E) of this RFA for definitions relevant to this program. Priorities: The RTP shall give preference to eligible entities working in partnership within rural communities: • to improve information-sharing capacity; • to maximize the ability to meet the requirements of this RFA; • to address Evaluation Criteria found in Part V. B. of this RFA; and • to address the following two RTP Program Goals: 1. To increase the number of students encouraged to pursue and complete a 2-year postsecondary degree, or a certificate of completion, within an occupational focus of this grant program; and 2. To assist rural communities by helping students achieve their career goals to develop a viable workforce for bioenergy, pulp and paper manufacturing, or agriculture-based renewable energy.

National Institute of Standards and Technology (NIST)

Congress Approves NIST's Recovery Plan to Create Jobs and Foster Innovation

http://www.nist.gov/public_affairs/releases/arra_050809.html

GAITHERSBURG, Md. - The U.S. Commerce Department's National Institute of Standards and Technology (NIST) has received Congressional approval on its recovery plan to create jobs,

strengthen the economy and encourage innovation. Under the American Recovery and Reinvestment Act (ARRA), NIST was granted \$580 million in direct appropriations, along with an additional \$30 million transferred to NIST from other federal agencies, to invest in construction projects, grants, scientific equipment and research fellowships.

National Institute of Standards and Technology (NIST)

Recovery Act Measurement Science and Engineering Fellowship Program

http://www.nist.gov/recovery/measurement_fellow_ffo.html

Approximately \$20 million has been designated for this program.

The primary program objectives of the **NIST Recovery Act Measurement Science and Engineering Fellowship Program** are:

1. To provide opportunities for scientists and engineers in training to perform research in broad areas of measurement science at NIST through research fellowships called Research Training Fellowships. Research Training Fellowships will be offered to qualified undergraduate students and graduate students at U.S. universities and colleges, and to postdoctoral researchers, in fields of science and engineering that contribute to NIST's measurement science programs.
2. To provide opportunities for practicing scientists and engineers in the public and private sectors to perform research in broad areas of measurement science at NIST through research fellowships called Senior Research Fellowships. Senior Research Fellowships will be offered to qualified scientists and engineers working at U.S. private firms, U.S. non-profit organizations, U.S. universities and colleges, and other organizations in fields of science and engineering that contribute to NIST's measurement science programs.

Modifications 1& 2

<http://www07.grants.gov/search/search.do?&mode=VIEW&flag2006=false&oppId=46060>

The deadline to apply is July 27, 2009.

National Institute of Standards and Technology (NIST)

Pre-solicitation Notice for Support of Smart Grid Interoperability Standards and Harmonization Effort

The U. S. Department of Commerce, National Institute of Standards and Technology (NIST) Acquisition Management Division (AMD) intends to post a solicitation consisting of a base period of six months, an option period one of six months and an option period two of one year for a Contractor to support NIST in fulfilling its responsibility to coordinate the development and harmonization of standards to enable widespread deployment of an interoperable and secure Smart Grid (SG). As part of this requirement, the Contractor will be required to engage all relevant SG stakeholders to ensure credible results. NIST estimates that this acquisition will be valued between \$5 million and \$9 million, including both option periods. Responses due: July 20.

National Institute of Standards and Technology (NIST)

Recovery Act Measurement Science and Engineering Research Grants Program

http://www.nist.gov/recovery/measurement_ffo.html

The National Institute of Standards and Technology (NIST) will provide grants and cooperative agreements for measurement science and engineering research in the following six focus areas of critical national importance: energy, environment and climate change, information technology/cybersecurity, biosciences/healthcare, manufacturing, and physical infrastructure, with priority funding in areas of special interest to NIST as described below. The program is intended to advance the state of knowledge and practice in these areas of critical national importance, in support of NIST's mission to promote U.S. innovation and industrial competitiveness by advancing measurement science, standards, and technology in ways that enhance economic security and improve our quality of life.

Application deadline: July 13, 2009

Economic Development Administration

Economic Development Assistance Programs Grant

Document Type:	Grants Notice
Funding Opportunity Number:	EDA06222009EDAP
Opportunity Category:	Discretionary
Posted Date:	Jun 24, 2009
Creation Date:	Jun 24, 2009
Original Closing Date for Applications:	Sep 30, 2010 Applications are accepted on a continuing basis and processed as received
Current Closing Date for Applications:	Sep 30, 2010 Applications are accepted on a continuing basis and processed as received
Archive Date:	Oct 30, 2010
Funding Instrument Type:	Grant
Category of Funding Activity:	Other (see text field entitled "Explanation of Other Category of Funding Activity" for clarification) Regional Development
Category Explanation:	EDA's mission is to lead the federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. In implementing this mission pursuant to its authorizing statute, the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. § 3121 et seq.) (PWEDA), EDA advances economic growth by assisting communities and regions experiencing chronic high unemployment and low per capita income to create an environment that fosters innovation, promotes entrepreneurship, and attracts increased private capital investment. EDA also

administers the Trade Adjustment Assistance for Firms Program (TAAF Program) under the Trade Act of 1974, as amended (19 U.S.C. §§ 2341-2391) (Trade Act). Under this program, EDA funds a national network of 11 non-profit organizations known as Trade Adjustment Assistance Centers, with each being assigned a different geographic service region, which in turn provide technical assistance to firms that have been adversely affected by increased import competition.

Expected Number of Awards:

Estimated Total Program Funding:

Award Ceiling:

Award Floor:

CFDA Number(s):

11.300 -- Investments for Public Works and Economic Development Facilities

11.302 -- Economic Development Support for Planning Organizations

11.303 -- Economic Development Technical Assistance

11.307 -- Economic Adjustment Assistance

11.313 -- Trade Adjustment Assistance

Cost Sharing or Matching Requirement: Yes

Eligible Applicants

County governments

City or township governments

Special district governments

Public and State controlled institutions of higher education

Native American tribal governments (Federally recognized)

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education

Private institutions of higher education

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Pursuant to PWEDA, eligible applicants for and eligible recipients of EDA investment assistance include a(n): (i) District Organization; (ii) Indian Tribe or a consortium of Indian Tribes; (iii) State, a city or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of political subdivisions; (iv) institution of higher education or a consortium of institutions of higher education; or (v) public or private non-

profit organization or association acting in cooperation with officials of a political subdivision of a State. See section 3 of PWEDA (42 U.S.C. § 3122) and 13 C.F.R. § 300.3. Projects eligible for Public Works or Economic Adjustment investment assistance include those projects located in regions meeting “Special Need” criteria (as defined in 13 C.F.R. § 300.3), as set forth in section VIII.B. of this announcement. For-profit, private-sector entities do not qualify for investment assistance under PWEDA. Nonetheless, under its Technical Assistance Program, EDA may make an award to a for-profit organization to carry out specific research or for other purposes set forth in 13 C.F.R. § 306.1. See also 42 U.S.C. § 3147. EDA is not authorized to provide grants directly to individuals or to for-profit entities seeking to start or expand a private business. Such requests may be referred to State or local agencies, or to non-profit economic development organizations serving the region in which the project will be located.

Description

Under this announcement, EDA solicits applications for the following programs under PWEDA: (i) Public Works; (ii) Planning; (iii) Local Technical Assistance; and (iv) Economic Adjustment Assistance. EDA will provide Public Works investments to support the construction or rehabilitation of essential public infrastructure and facilities necessary to generate or retain private sector jobs and investments, attract private sector capital, and promote regional competitiveness, including investments that expand and upgrade infrastructure to attract new industry, support technology-led development, accelerate new business development, and enhance the ability of regions to capitalize on opportunities presented by free trade. The Planning Program helps support planning organizations, including District Organizations and Indian Tribes, in the development, implementation, revision or replacement of comprehensive economic development strategies (CEDs), and for related short-term planning investments and State plans designed to create and retain higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the nation’s most economically distressed regions. The Local Technical Assistance Program helps fill the knowledge and information gaps that may prevent leaders in the public and nonprofit sectors in economically distressed regions from making optimal decisions on local economic development issues. The Economic Adjustment Assistance Program provides a wide range of technical, planning and infrastructure assistance in regions experiencing adverse economic changes that may occur suddenly or over time. This program is designed to respond flexibly to pressing economic recovery issues and is well suited to help address challenges faced by U.S. communities and regions.

Department of Education

Teacher Quality Partnership Grants Program; (ARRA Program) CFDA 84.405A Grant

NOTE Letter of Intent for this program had to be submitted by June 26, 2009

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	ED-GRANTS-052709-001
Opportunity Category:	Discretionary
Posted Date:	May 27, 2009
Creation Date:	Jun 04, 2009
Original Closing Date for Applications:	Jul 23, 2009 Applications Available: May 27, 2009. Deadline for Notice of Intent to Apply: June 26, 2009. Notice of Intent To Apply: June 26, 2009. The Department will be able to develop a more efficient process for reviewing grant applications if it has a better understanding of the number of entities that intend to apply for funding under this competition. Therefore, the Secretary strongly encourages each potential applicant to notify the Department by sending a short e-mail message indicating the applicant's intent to submit an application for funding. The e-mail need not include information regarding the content of the proposed application, only the

applicant's intent to submit it. The Secretary requests that this e-mail notification be sent to Peggi Zelinko at TQPartnership@ed.gov. Applicants that fail to provide this e-mail notification may still apply for funding. Dates of Pre-Application Meeting: There will be two pre-application meetings for prospective applicants on June 8, 2009 from 10:00 a.m. to 12:00 p.m. and on June 8, 2009 from 2:00 p.m. to 4:00 p.m. There will be two pre-application meetings for prospective applicants: (1) June 8, 2009, from 10:00 a.m. to 12:00 p.m. in the LBJ Auditorium at the U.S. Department of Education headquarters, 400 Maryland Avenue, SW., Washington, DC 20202; and (2) June 8, 2009 from 2:00 p.m. to 4:00 p.m. in the LBJ Auditorium at the U.S. Department of Education headquarters, 400 Maryland Avenue, SW., Washington, DC 20202. The Department is accessible by Metro on the Blue, Orange, Green, and Yellow lines at the 7th Street and Maryland Avenue exit of the L'Enfant Plaza Metro Station. Please contact the U.S. Department of Education contact persons listed under FOR FURTHER INFORMATION CONTACT if you have any questions about the details of the pre-application meetings. Individuals interested in attending this workshop are encouraged to pre-register by e-mailing their name, organization, and contact information to TQPartnership@ed.gov. There is no registration fee for this workshop. Assistance to Individuals With Disabilities at the Pre-Application Meeting: The meeting site is accessible to individuals with disabilities, and a sign language interpreter will be available. If you will need an auxiliary aid or service other than a sign language interpreter in order to participate in the meeting (e.g., other interpreting service such as oral, cued speech, or tactile interpreter; assistive listening device; or materials in alternate format), notify the contact person listed in this notice at least two weeks before the scheduled meeting date. Although we will attempt to meet a request we receive after this date, we may not be able to make available the requested auxiliary aid or service because of insufficient time to arrange it. Deadline for Transmittal of Applications: July 23, 2009.

Current Closing Date for Applications: Jul 23, 2009 Applications Available: May 27, 2009. Deadline for Notice of Intent to Apply:

June 26, 2009. Notice of Intent To Apply: June 26, 2009. Additional Information on Eligibility:

Eligible Applicants: An eligible applicant must be an "eligible partnership" as defined in section 200(6) of the HEA. The fiscal agent of the grant must be one of the required partners in the eligible partnership, as described in section 200 of the HEA. We are establishing this requirement in accordance with section 437(d)(1) of GEPA to ensure that a required member of the partnership is responsible for the administration of the grant.

Agency Name

U.S. Department of Education

Description

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal

Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

Purpose of Program: The purposes of the Teacher Quality Partnership (TQP) Grants Program are to: Improve student achievement; improve the quality of new and prospective teachers by improving the preparation of prospective teachers and enhancing professional development activities for new teachers; hold teacher preparation programs at institutions of higher education (IHEs) accountable for preparing highly qualified teachers; and recruit highly qualified individuals, including minorities and individuals from other occupations, into the teaching force. More specifically, the TQP Grants Program seeks to improve the quality of new teachers by creating partnerships among IHEs, high-need school districts (local educational agencies (LEAs)) their high-need schools, and/or high-need early childhood education (ECE) program. These partnerships would create model teacher preparation programs at the pre-baccalaureate level through the implementation of specific reforms of the IHE's existing teacher preparation programs, and/or model teaching residency programs for individuals with strong academic and/or professional backgrounds but without teaching experience. The TQP Grants Program may also support school leadership programs to train superintendents, principals, ECE program directors, and other school leaders in high-need or rural LEAs. Catalog of Federal Domestic Assistance (CFDA) Number: 84.405A. Applications for grants under the Teacher Quality Partnership--CFDA Number 84.405A must be submitted electronically using e-Application, accessible through the Department's e-Grants Web site at: <http://e-grants.ed.gov>. While completing your electronic application, you will be entering data online that will be saved into a database. You may not e-mail an electronic copy of a grant application to us. Notice inviting applications for new awards for fiscal year (FY) 2009; correction. On May 27, 2009, we published in the Federal Register (74 FR 25221) a notice inviting applications for new awards for FY 2009. This notice corrects an error in that notice. In the Federal Register of May 27, 2009, in FR Doc. E9-12180, on page 25227, in the third column, under the heading Poverty Data, at the end of line six, insert the word ``not" after the word ``serves."

Promoting Post-baccalaureate Opportunities for Hispanic Americans (PPOHA) CFDA 84.031M Grant

Document Type:	Grants Notice
Funding Opportunity Number:	ED-GRANTS-061809-001
Opportunity Category:	Discretionary
Posted Date:	Jun 18, 2009
Creation Date:	Jun 18, 2009
Original Closing Date for Applications:	Jul 20, 2009 Applications Available: June 18, 2009. Deadline for Transmittal of Applications: July 20, 2009.
Current Closing Date for Applications:	Jul 20, 2009 Applications Available: June 18, 2009. Deadline for Transmittal of Applications:

	July 20, 2009.
Archive Date:	Aug 19, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Education
Category Explanation:	
Expected Number of Awards:	23
Estimated Total Program Funding:	\$11,500,000
Award Ceiling:	\$575,000
Award Floor:	
CFDA Number(s):	84.031 -- Higher Education Institutional Aid
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Public and State controlled institutions of higher education
Private institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

1. Eligible Applicants: Institutions of higher education (IHEs) that offer a postbaccalaureate certificate or postbaccalaureate degree program and qualify as eligible Hispanic-serving institutions (HSIs) under section 502 of the HEA. To qualify as an eligible HSI for the PPOHA Program under section 502 of the HEA, an IHE must-- (a) Have an enrollment of needy students, as required by section 502(b) of the HEA (20 U.S.C. 1101a(a)(2)(A)(i)); (b) Have, except as provided in section 522(b) of the HEA, average educational and general expenditures that are low, per full-time equivalent (FTE) undergraduate student, in comparison with the average educational and general expenditures per full-time equivalent undergraduate student of institutions that offer similar instruction (20 U.S.C. 1101a(a)(2)(A)(ii)); Note: To demonstrate an enrollment of needy students (paragraph (a) of this section) and low average educational and general expenditures per FTE undergraduate student (paragraph (b) of this section), an IHE must be designated as an "eligible institution" in accordance with 34 CFR 606.3 through 606.5 and the notice inviting applications for Designation as Eligible Institutions for FY 2009 (74 FR 3579). (c) Be accredited by a nationally recognized accrediting agency or association that the Secretary has determined to be a reliable authority as to the quality of education or training offered, or is making reasonable progress toward accreditation, according to such an agency or association (20 U.S.C. 1101a(a)(2)(A)(iv)); (d) Be legally authorized to provide, and provides within the State, an educational program for which the institution awards a bachelor's degree (20 U.S.C. 1101a(a)(2)(A)(iii)); and (e) Have an enrollment of undergraduate FTE students that is at least 25 percent Hispanic students at the end of the award year immediately preceding the date of application (20 U.S.C. 1101a(a)(5)(B)).

Description

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. Purpose of Program: The Promoting Postbaccalaureate Opportunities for Hispanic Americans (PPOHA) Program provides grants to: (1) Expand postbaccalaureate educational opportunities for, and improve the academic attainment of, Hispanic students; and (2) expand the postbaccalaureate academic offerings as well as enhance the program quality in the institutions of higher education that are educating the majority of Hispanic college students and helping large numbers of Hispanic and low-income students complete postsecondary degrees. Catalog of Federal Domestic Assistance (CFDA) Number: 84.031M. Applications for grants under the Promoting Postbaccalaureate Opportunities for Hispanic Americans Program--CFDA Number 84.031M must be submitted electronically using e-Application, accessible through the Department's e-Grants Web site at: <http://e-grants.ed.gov>. While completing your electronic application, you will be entering data online that will be saved into a database. You may not e-mail an electronic copy of a grant application to us.

Creation Date:	Jun 01, 2009
Original Closing Date for Applications:	Jul 16, 2009
Current Closing Date for Applications:	Jul 16, 2009
Archive Date:	Aug 15, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Education
Category Explanation:	
Expected Number of Awards:	20
Estimated Total Program Funding:	\$750,000
Award Ceiling:	\$75,000
Award Floor:	\$40,000
CFDA Number(s):	90.400 -- Help America Vote College Pollworker Program
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Public and State controlled institutions of higher education
Private institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Public and Private Institutions of higher education (including community colleges) and non-profits organizations partnering with Institutions of higher education. Re-competing Grantees. 2008 EAC college poll worker grantees are only eligible to apply as re-competing grantees for funds to support new partnerships with University disability and inclusion offices and other disability support groups to develop innovative programs to recruit poll workers with disabilities and develop new training material that helps all poll workers create receptive and accommodating poll place environments on Election Day. Funds will not be provided to support the same activities carried out during the FY 2008 grant period.

Description

The United States Election Assistance Commission (EAC) will award a total of \$750,000 in competitive grants under the Help America Vote College Poll Worker Program (College Program) for programs to recruit college students to serve as poll workers. The two-year grant award will be used to recruit, train and support college students to assist state and local governments in the administration of elections by serving as nonpartisan poll workers or assistants. See U.S. Election Assistance Commission web site for complete Description.

U.S. Department of Energy

Secretary Chu Announces \$256 Million Investment to Improve the Energy Efficiency of the American Economy

<http://www.energy.gov/news2009/print2009/7434.htm>

June 1, 2009

U.S. Department of Energy Secretary Steven Chu announced plans to provide \$256 million from the American Recovery and Reinvestment Act to support energy efficiency improvements in major industrial sectors across the American economy. The funding is targeted at reducing the energy consumption of America's manufacturing and information technology (IT) industries, while creating jobs and stimulating economic growth. These programs will help create manufacturing jobs quickly, along with jobs for technicians and experts who will be needed in the long-term to maintain and operate the new equipment.

DOE Launches the Advanced Research Projects Agency-Energy, or ARPA-E

http://apps1.eere.energy.gov/news/news_detail.cfm/news_id=12478

President Barack Obama announced the launch of the Advanced Research Projects Agency-Energy (ARPA-E) on April 27 as part of a sweeping announcement about federal investment in research and development and science education. ARPA-E is a new DOE organization modeled after the Defense Advanced Research Projects Agency (DARPA), the defense agency that gave us the Internet, the Global Positioning System (GPS), and many other technological breakthroughs. ARPA-E was recommended by the National Academy of Sciences (NAS) and was authorized by Congress in 2007, but it received its first funding of \$400 million via the American Recovery and Reinvestment Act.

DOE Recovery Act Clearinghouse

<https://recoveryclearinghouse.energy.gov/index.htm>

The purpose of the DOE Recovery Act Clearinghouse is to help increase the availability of information about DOE's American Recovery and Reinvestment Act of 2009 (ARRA) activities. The Clearinghouse will provide initial consultations, and also make referrals when appropriate to other information sources (websites, documents, DOE staff, etc).

You can contact DOE with your questions using the submittal form online, by calling the toll-free number: 1-888-DOE-RCVY (1-888-363-7289), or by browsing a list of frequently asked questions. Media inquiries should be directed to the DOE Press Office.

Enhancing State Government Energy Assurance Capabilities and Planning for Smart Grid Resiliency

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000091.pdf>

Approximately \$39.5 million has been designated for this program.

This initiative, called "The Enhancing State Government Energy Assurance Capabilities and Planning for Smart Grid Resiliency Initiative" (hereinafter called the State EA Initiative) focuses on developing new, or refining existing, plans to integrate new energy portfolios (renewables, biofuels, etc) and new applications, such as Smart Grid technology, into energy assurance and emergency preparedness plans. Better planning efforts will help contribute to the resiliency of the energy sector, including the electricity grid, by focusing on the entire energy supply system, which includes refining, storage, and distribution of fossil and renewable fuels.

The deadline to apply is July 30, 2009

Resource Assessment and Interconnection-Level Transmission Analysis and Planning

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000068.pdf>

Approximately \$60 million has been designated for this program.

The objective of this Funding Opportunity Announcement is to facilitate the development or strengthening of capabilities in each of the three interconnections serving the lower 48 states of the United States, to prepare analyses of transmission requirements under a broad range of alternative futures and develop long-term interconnection-wide transmission expansion plans. The interconnections are the Western Interconnection, the Eastern Interconnection, and the Texas Interconnection.

The deadline to apply is August 14, 2009

Carbon Capture and Sequestration from Industrial Sources and Innovative Concepts for Beneficial CO2 Use

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000015.pdf>

The United States Department of Energy, National Energy Technology Laboratory (DOE/NETL, or DOE) is competitively soliciting applications for a requirement titled "Carbon Capture and Sequestration from Industrial Sources and Innovative Concepts for Beneficial CO2 Use." The CO2 Capture and Sequestration (CCS) and CO2 use is a cost-shared collaboration between the Government and industry to increase investment in clean industrial technologies and sequestration projects.

The deadline to apply for this solicitation is August 7, 2009.

Combined Heat and Power Systems Technology Development and Demonstration

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000016.pdf>

The Department of Energy (DOE), National Energy Technology Laboratory (NETL) on behalf of the Office of Energy Efficiency and Renewable Energy's (EERE) Office of Industrial Technologies (ITP) seeks applications for cost-shared Research, Development, and Demonstration projects for Combined Heat and Power (CHP) applications. The technologies, when deployed commercially, will enable the US industry to reduce natural gas requirements and expand the use of combined heat and power (CHP) applications. The aforementioned technologies shall contribute toward the following ITP programmatic goals and objectives:

- 1) Drive a 25% reduction in U. S. industrial energy intensity by 2017 in support of EPAct 2005;
- 2) Contribute to an 18% reduction in U.S. carbon intensity by 2012 as established by the Administration's "National Goal to Reduce Emissions Intensity"

The deadline to apply for this solicitation is July 7, 2009.

Clean Coal Power Initiative - Round 3

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000042.pdf>

The Clean Coal Power Initiative (CCPI) is a cost-shared collaboration between the Government and industry to increase investment in low-emission coal technology by demonstrating advanced coal based, power generation technologies. The CCPI goal is to accelerate the readiness of advanced coal technologies for commercial deployment, thus ensuring that the United States has clean, reliable, and affordable electricity and power.

Letter of intent due: July 24, 2009

Application due: August 24, 2009

Award Floor: \$0
CFDA Number(s): 81.087 -- Renewable Energy Research and Development
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Description

The full Funding Opportunity Announcement (FOA) is posted in FedConnect, and is found by going to:
https://www.fedconnect.net/FedConnect/PublicPages/PublicSearch/Public_Opportunities.aspx.

Under Search Criteria, select Reference Number, and in the next field enter the FOA number (you may also search by other criteria). It is the responsibility of the applicant, prior to the Application due date and time, to verify successful transmission. The American Recovery and Reinvestment Act of 2009 (Recovery Act) enables DOE to support renewable energy research, development, demonstration and deployment activities, which includes accelerating the development of biomass technologies. Recovery Act funds specifically assist in expediting the construction and deployment of "shovel-ready" projects and to create jobs. Other requirements for Recovery Act projects can be found at Recovery.gov and in the OMB guidelines. All proposals must demonstrate the understanding of and compliance with Recovery Act intentions and OMB guidelines. The intent of this Funding Opportunity Announcement (FOA) will be to select integrated biorefinery projects that have the necessary technical and economic performance data that validates their readiness for the next level of scale-up. In general, integrated biorefineries employ various combinations of feedstocks and conversion technologies to produce a variety of products, with the main focus on producing biofuels and bioproducts. Co- or by-products can include additional fuels, chemicals (or other materials), and heat and power. For the purpose of this FOA, the term "integrated biorefinery" is a facility that uses an "acceptable feedstock" (as defined in the FOA), to produce a biofuel or bioproduct as the "primary product" (as defined in the FOA) and may produce other products including additional fuels, chemicals (or other materials), and heat and power as co-products. These integrated biorefineries would produce, as their primary product, a liquid transportation fuel that supports, depending on topic area, meeting the advanced, renewable or advanced biofuels portion of the Energy Independence and Security Act of 2007 (EISA) Renewable Fuel Standards (RFS) or, depending on topic area, a bioproduct that substitutes for petroleum-based feedstocks and products. DOE encourages applications that propose novel or breakthrough technologies and those that include appropriate collaboration between and among industry, academia, and DOE National Laboratories, FFRDCs (Federally Funded Research and Development Centers) or other government-funded facilities. APPLICATIONS MUST BE SUBMITTED THROUGH FEDCONNECT AT

<https://www.fedconnect.net/> TO BE CONSIDERED FOR AWARD. To submit an application in response to this FOA, Applicants must be registered with FedConnect. Before you can register with FedConnect, you will need the following: 1. Your company's DUNS (including plus 4 extension if applicable). If you don't know your company's DUNS or if your company does not have a DUNS you can search for it or request one at <http://fedgov.dnb.com/webform/displayHomePage.do> . 2. A federal Central Contractor Registration (CCR) account. If your company is not currently registered with CCR, please register at www.ccr.gov before continuing with your FedConnect registration. 3. Possibly, your company's CCR MPIN. If you are the first person from your company to register, FedConnect will need to create a company account. Only a person who knows your company's CCR MPIN can do this. To find out who this is in your company, go to <http://www.ccr.gov/> and click Search CCR. Once you've found your company, locate the Electronic Business Point of Contact. After the initial FedConnect account is created, employees can register themselves without the MPIN. If you are not sure whether your company has an account with FedConnect, don't worry. Complete the registration form and FedConnect will let you know. Applicants who are not registered with CCR and FedConnect, should allow at least 21 days to complete these requirements. It is suggested that the process be started as soon as possible. For those Applicants already registered in CCR, the CCR registration must be updated annually at <http://www.ccr.gov/Renew.aspx>. Questions regarding the content of the announcement must be submitted through the FedConnect portal. You must register with FedConnect to respond as an interested party to submit questions, and to view responses to questions. It is recommended that you register as soon after release of the FOA as possible to have the benefit of all responses. More information is available at https://www.fedconnect.net/FedConnect/PublicPages/FedConnect_Ready_Set_Go.pdf. DOE will try to respond to a question within 3 business days, unless a similar question and answer have already been posted on the website. Questions pertaining to the submission of applications through FedConnect should be directed by e-mail to support@FedConnect.net or by phone to FedConnect Support at 1-800-899-6665.

Golden Field Office

Recovery Act: Solar Market Transformation Grant

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	DE-FOA-0000078
Opportunity Category:	Other
Posted Date:	May 27, 2009
Creation Date:	Jun 11, 2009
Original Closing Date for Applications:	Jul 30, 2009
Current Closing Date for Applications:	Jul 30, 2009
Archive Date:	Sep 27, 2009

Funding Instrument Type: Cooperative Agreement
Grant
Category of Funding Activity: Energy
Recovery Act
Category Explanation:
Expected Number of Awards:
Estimated Total Program Funding:
Award Ceiling: \$6,000,000
Award Floor: \$100,000
CFDA Number(s): 81.117 -- Energy Efficiency and Renewable
Energy Information Dissemination, Outreach,
Training and Technical Analysis/Assistance
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

¿ This is a restricted eligibility. ¿ Topic 1: In accordance with 10 CFR 600.6(b) eligibility for award is restricted to the existing 25 Solar America Cities awarded under the FY07 Solar City Strategic Partnerships Funding Opportunity Announcement DE-PS36-07GO97007 and the FY08 Solar City Strategic Partnerships Funding Opportunity Announcement DE-PS36-08GO98003. Topic 2: is open to all domestic entities and institutions.

Agency Name

Golden Field Office

Description

A link to the full Funding Opportunity Announcement is found by scrolling to the bottom of this page. Topic 1 DOE is looking for the Solar America Cities to scale-up innovative programs and concepts so they can be tested in a broader marketplace; thereby, increasing the likelihood of replication in other U.S. cities. Such an approach recognizes the city's role as an important end user of electricity, as a key intermediary to other end users within their jurisdiction, and as a regulatory entity. DOE expects award recipient cities to develop projects that support their city-wide solar implementation plans. Projects must tackle specific barriers important to urban solar and must be replicable at some level among fellow Solar America Cities, other cities and local governments, states, and internationally. Topic 2 intends to address the workforce development needs of the solar industry, both for grid-tied PV systems in residential, commercial, and utility markets, and for SHC systems. Funded activities are not intended to support off-grid PV applications. The overall goal of this FOA is to promote an increase in the quality and

availability of instruction relating to the installation of PV and SHC systems. ¶ This is a restricted eligibility. ¶ Topic 1: In accordance with 10 CFR 600.6(b) eligibility for award is restricted to the existing 25 Solar America Cities awarded under the FY07 Solar City Strategic Partnerships Funding Opportunity Announcement DE-PS36-07GO97007 and the FY08 Solar City Strategic Partnerships Funding Opportunity Announcement DE-PS36-08GO98003. Topic 2: is open to all domestic entities and institutions. Use the Quick Start Guide to assist you with FedConnect:

Description

The full Funding Opportunity Announcement (FOA) is posted in FedConnect, and is found by going to https://www.fedconnect.net/FedConnect/PublicPages/PublicSearch/Public_Opportunities.aspx.

Under Search Criteria, select Reference Number, and in the next field enter the FOA number (you may also search by other criteria). It is the responsibility of the applicant, prior to the Application due date and time, to verify successful transmission. The energy used by our nation's vital telecommunications and data centers is growing at an alarming rate. As information technology and communications services continue to slowly converge, the data center and telecommunications industries face increasingly similar challenges to control the power usage of their microprocessors or servers and supporting power and cooling systems. The electricity consumed in data centers and telecom systems is already three percent of the U.S. total and growing rapidly. In the face of growing global energy demand, uncertain energy supplies, and volatile energy prices,

innovative solutions are needed to radically advance the energy efficiency of these systems, which represent the engine of the American economy today. Enhanced energy efficiency in the central offices and data centers supporting our information, communications technology (ICT) systems will enhance U.S. energy and economic security. This Funding Opportunity Announcement seeks to develop new technologies to dramatically improve energy efficiency in ICT with an emphasis on new technologies that can be commercialized within the next three to five years, and to demonstrate through field testing highly energy efficient, emerging technologies that are ready for or are in the initial stage of commercial introduction. Funding Instrument Type:	Cooperative Agreement Grant
Category of Funding Activity:	Energy Recovery Act
Category Explanation:	
Expected Number of Awards:	21
Estimated Total Program Funding:	\$50,000,000
Award Ceiling:	\$5,000,000
Award Floor:	\$0
CFDA Number(s):	81.087 -- Renewable Energy Research and Development
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Additional Information on Eligibility:

Agency Name

Golden Field Office

Description

The full Funding Opportunity Announcement (FOA) is posted in FedConnect, and is found by going to:

https://www.fedconnect.net/FedConnect/PublicPages/PublicSearch/Public_Opportunities.aspx.

Under Search Criteria, select Reference Number, and in the next field enter the FOA number (you may also search by other criteria). It is the responsibility of the applicant, prior to the Application due date and time, to verify successful transmission. A total of \$50,000,000 is expected to be available for new awards under this announcement. Please see the entire FOA for detailed funding information. With this announcement, The U.S. Department of Energy (DOE) Geothermal Technologies Program (GTP) will address Section 931(a)(2)(C) of the Energy Policy Act (EPA) of 2005, which includes authorization to promote the deployment of ground source heat pumps, also known as geothermal heat pumps (GHPs). Funding will be made available through the American Recovery and Reinvestment Act of 2009. Through this FOA, DOE seeks to increase the deployment of ground source heat pumps through new commercialization strategies that incorporate: 1) innovative commercial-scale or residential community technology demonstration projects; 2) data gathering and analysis related to system costs, performance, and installation techniques; and 3) a national GHP certification standard. DOE's objective is to promote ground source heat pumps via the following three Topic Areas: 1. Technology Demonstration Projects: Mid- or large-scale (i.e. provide 50-100 tons of heating and/or cooling) cost-shared technology demonstration projects that incorporate innovative business and financing strategies and/or technical approaches designed to overcome commercialization barriers that currently exist for GHPs. 2. Data Gathering and Analysis: Data gathering and analysis research papers related to system costs, performance, and installation techniques, which will provide insights into the lowest life-cycle cost applications for GHPs and assist consumers in determining project feasibility. 3. National Certification Standard: A national certification standard for the GHP industry designed to increase consumer confidence in the technology, reduce the potential for improperly installed systems, and assure product quality and performance. See the full Funding Opportunity Announcement for a detailed description of these Topic Areas. The Program seeks to maintain an aggressive schedule for project completion as well as the creation and maintenance of jobs. Applications with more aggressive schedules for completion, greater number of jobs created, cost share above the minimum level required, and cooperation between industry, accredited educational institutions, and/or Indian Tribes/ Tribal Energy Resource Development Organizations or Groups may be given greater consideration. A single Principal Investigator or organization may submit separate applications to multiple Topic Areas, or separate applications to a single Topic Area. However, a single Principal Investigator or organization may not submit a single application that addresses multiple Topic Areas. Each application will be evaluated according to its respective merit review criteria. Therefore, applicants are required to clearly declare which Topic Area they are applying for within each application. Applications that address more than one Topic Area will not pass the Initial Review. Also, DOE reserves the right to make one award, multiple awards, or no awards in any given Topic Area. For all Topic Areas, the Applicant must state, in writing with concurrence from an authorized representative from the organization, that non-proprietary data collected during the project period will be made available to the public through the National Geothermal Data System (please reference <http://www1.eere.energy.gov/geothermal/> for more information). DOE must also be provided with reasonable access to the project site. Use the Quick Start Guide to assist you with FedConnect: https://www.fedconnect.net/FedConnect/PublicPages/FedConnect_Ready_Set_Go.pdf

APPLICATIONS MUST BE SUBMITTED THROUGH FEDCONNECT AT

<https://www.fedconnect.net/> TO BE CONSIDERED FOR AWARD. NOTE: Organizations with system-to-system capabilities with Grants.gov for their submissions may continue to use their systems, and their applications will be accepted in Grants.gov to be considered for award. To submit an application in response to this FOA, Applicants must be registered with FedConnect. Before you can register with FedConnect, you will need the following: 1. Your company's DUNS (including plus 4 extension if applicable). If you don't know your company's DUNS or if your company does not have a DUNS you can search for it or request one at <http://fedgov.dnb.com/webform/displayHomePage.do> . 2. A federal Central Contractor Registration (CCR) account. If your company is not currently registered with CCR, please register at www.ccr.gov before continuing with your FedConnect registration. 3. Possibly, your company's CCR MPIN. If you are the first person from your company to register, FedConnect will need to create a company account. Only a person who knows your company's CCR MPIN can do this. To find out who this is in your company, go to <http://www.ccr.gov/> and click Search CCR. Once you've found your company, locate the Electronic Business Point of Contact. After the initial FedConnect account is created, employees can register themselves without the MPIN. If you are not sure whether your company has an account with FedConnect, don't worry. Complete the registration form and FedConnect will let you know. Applicants who are not registered with CCR and FedConnect, should allow at least 21 days to complete these requirements. It is suggested that the process be started as soon as possible. For those Applicants already registered in CCR, the CCR registration must be updated annually at <http://www.ccr.gov/Renew.aspx>. Questions regarding the content of the announcement must be submitted through the FedConnect portal. You must register with FedConnect to respond as an interested party to submit questions, and to view responses to questions. It is recommended that you register as soon after release of the FOA as possible to have the benefit of all responses. More information is available at https://www.fedconnect.net/FedConnect/PublicPages/FedConnect_Ready_Set_Go.pdf.

DOE will try to respond to a question within 3 business days, unless a similar question and answer have already been posted on the website. Recovery Act: Wind Energy Consortia between Institutions of Higher Learning and Industry Grant

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	DE-FOA-0000090
Opportunity Category:	Discretionary
Posted Date:	Jun 02, 2009
Creation Date:	Jun 18, 2009
Original Closing Date for Applications:	Jul 29, 2009 In order to meet programmatic requirements.
Current Closing Date for Applications:	Jul 29, 2009 In order to meet programmatic requirements.
Archive Date:	Sep 29, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Energy Recovery Act
Category Explanation:	

Expected Number of Awards:
Estimated Total Program Funding:
Award Ceiling: \$12,000,000
Award Floor: \$8,000,000
CFDA Number(s): 81.087 -- Renewable Energy Research and Development
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligibility is restricted to consortia led by an institution of higher learning. The consortia must include at least one four-year institution of higher learning that has at least one engineering program that is accredited by the Accreditation Board for Engineering and Technology (ABET).

Agency Name

Golden Field Office

Description

This is a restricted eligibility. Eligibility is restricted to consortia led by an institution of higher learning. The consortia must include at least one four-year institution of higher learning that has at least one engineering program that is accredited by the Accreditation Board for Engineering and Technology (ABET). The full Funding Opportunity Announcement (FOA) is posted in FedConnect, and is found by going to <https://www.fedconnect.net/FedConnect/PublicPages/PublicSearch/PublicOpportunities.aspx>. Click on the Advanced Options link, and in Issuing Office field, enter Golden Field Office, then click on Search. Once the screen comes up, locate the appropriate Announcement. In order to be considered for award, you MUST follow the instructions contained in the Announcement. This action will fund consortia between institutions of higher learning and industry that will perform focused research on critical wind energy challenges. These funds will be provided under the American Recovery and Reinvestment Act of 2009 to preserve and create jobs, promote economic recovery, and provide investments needed to increase wind energy R D. The funding will be focused on two complementary areas, but not separate topics: Topic Area 1: Partnerships for Wind Research and Turbine Reliability: Universities in regions of the country in a Power Class 3 at 50 meters or greater wind region with consistent wind resources throughout the year are encouraged to team with industry partners to establish facilities/equipment and a research agenda necessary to study major challenges facing today's wind industry. Proposals must address one or more challenges described in the 20 Percent Wind Energy by 2030, report and shall include descriptions of how the wind hardware and software will be acquired. DOE highly encourages research in turbine reliability as a topic in any consortia proposal. Topic Area 2: Wind Energy Research Development: University R D to advance material design, performance

measurements, analytical models, and leveraging partnerships with industry to improve power systems operations, maintenance or repair operations, wind turbine and/or component manufacturing, and interdisciplinary system integration. Fellowships, internships, etc. may be used to support the research agenda. Universities are encouraged to partner with the wind industry in defining their R D agenda, developing their curriculum, and intern partnerships. Use the Quick Start Guide to assist you with FedConnect:

https://www.fedconnect.net/FedConnect/PublicPages/FedConnect_Ready_Set_Go.pdf

APPLICATIONS MUST BE SUBMITTED THROUGH FEDCONNECT AT

<https://www.fedconnect.net/> TO BE CONSIDERED FOR AWARD. NOTE: Organizations with system-to-system capabilities with Grants.gov for their submissions may continue to use their systems, and their applications will be accepted in Grants.gov to be considered for award. To submit an application in response to this FOA, Applicants must be registered with FedConnect. Before you can register with FedConnect, you will need the following: 1. Your company's DUNS (including plus 4 extension if applicable). If you don't know your company's DUNS or if your company does not have a DUNS you can search for it or request one at <http://fedgov.dnb.com/webform/displayHomePage.do> . 2. A federal Central Contractor Registration (CCR) account. If your company is not currently registered with CCR, please register at www.ccr.gov before continuing with your FedConnect registration. 3. Possibly, your company's CCR MPIN. If you are the first person from your company to register, FedConnect will need to create a company account. Only a person who knows your company's CCR MPIN can do this. To find out who this is in your company, go to <http://www.ccr.gov/> and click Search CCR. Once you've found your company, locate the Electronic Business Point of Contact. After the initial FedConnect account is created, employees can register themselves without the MPIN. If you are not sure whether your company has an account with FedConnect, don't worry. Complete the registration form and FedConnect will let you know. Applicants who are not registered with CCR and FedConnect, should allow at least 21 days to complete these requirements. It is suggested that the process be started as soon as possible. For those Applicants already registered in CCR, the CCR registration must be updated annually at <http://www.ccr.gov/Renew.aspx>. Questions regarding the content of the announcement must be submitted through the FedConnect portal. You must register with FedConnect to respond as an interested party to submit questions, and to view responses to questions. It is recommended that you register as soon after release of the FOA as possible to have the benefit of all responses. More information is available at https://www.fedconnect.net/FedConnect/PublicPages/FedConnect_Ready_Set_Go.pdf. DOE will try to respond to a question within 3 business days, unless a similar question and answer have already been posted on the website. Questions pertaining to the submission of applications through FedConnect should be directed by e-mail to support@FedConnect.net or by phone to FedConnect Support at 1-800-899-6665.

National Energy Technology Laboratory

Recovery Act: Site Characterization of Promising Geologic Formations for CO2 Storage Grant

Document Type:	Grants Notice
Funding Opportunity Number:	DE-FOA-0000033
Opportunity Category:	Discretionary

Posted Date: Jun 02, 2009
Creation Date: Jun 02, 2009
Original Closing Date for Applications: Aug 03, 2009
Current Closing Date for Applications: Aug 03, 2009
Archive Date: Oct 02, 2009
Funding Instrument Type: Cooperative Agreement
Category of Funding Activity: Energy
Category Explanation:
Expected Number of Awards:
Estimated Total Program Funding:
Award Ceiling:
Award Floor: \$3,000,000
CFDA Number(s): 81.089 -- Fossil Energy Research and Development
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Description

Projects under this Funding Opportunity Announcement (FOA) will be funded, in whole or in part, with funds appropriated by the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, (Recovery Act or Act). The Recovery Act's purposes are to stimulate the economy and to create and retain jobs. The Act gives preference to activities that can be started and completed expeditiously. Accordingly, special consideration will be given to projects that promote and enhance the objectives of the Act, especially job creation, preservation and economic recovery, in an expeditious manner. **YOU MUST SUBMIT YOUR APPLICATION THROUGH FEDCONNECT TO BE CONSIDERED FOR AN AWARD.** The following paragraphs are for informational purposes ONLY. ALL questions must be submitted through FedConnect. Application preparation instructions, additional programmatic background information, merit review criterion, etc. are included in the Body of the FOA which can be located in the upper right hand corner of the FedConnect Home Page for this specific FOA (DE-FOA-0000033). **YOU MUST FOLLOW THE INSTRUCTIONS CONTAINED IN THE BODY OF THE FOA TO BE CONSIDERED FOR AN AWARD.** The purpose of this FOA is to focus on regional site characterization of a minimum of 10 distinct ¿high-potential¿ (described in the next paragraph) geologic formations. Geologic storage formations can be saline formations, depleting/depleted oil fields, or coals seams. Each application submitted in response to this FOA should focus on a minimum of one specific site, formation, or area not previously characterized with public data, unless a strong case can be made for further characterization for deficiencies in the available data sets. It is anticipated that a minimum of 10 awards will be made, for a total site characterization of a minimum of 10 distinct ¿high-potential¿ geologic formations. It is expected that these

characterization projects will increase our understanding of the potential for these formations to safely and permanently store CO₂. To be a distinct “high-potential” geologic formation, the target formation should be representative of the regional geology that could be used to store CO₂ emissions from sources where CO₂ could be captured and economically transported. The site should have the potential to store at least 30 million tons of CO₂ and should be able to accept CO₂ from a large commercial source over the lifetime of the source. The formation should represent a significant storage opportunity in the region with appropriate structure and geology (seals) to protect against adverse impacts on the overlying formation or risks to Underground Sources of Drinking Water (USDW) and the surface. The Applicant must demonstrate to DOE that the formation is a significant CO₂ storage site (sink) in the region that could be developed commercially in the future. The Applicant will be required to provide a description of the sink, seals, and the expected capacity. If stacked reservoirs (where multiple oil reservoirs, brine-filled formations, and/or coal seams are available for storage) are planned to be characterized for the project, the regional potential estimates should include a discussion of the extent and representativeness of the stacked geology. The objectives of this FOA are to develop comprehensive data sets of formation characteristics (porosity, permeability, injectivity, mineralogy, saturations (if applicable), reservoir architecture, cap rock integrity, etc.); to determine usefulness of potential geologic storage sites; to augment existing data sets and refine best practices for approving storage site selection; and to characterize a minimum of 10 distinct “high-potential” geologic formations or reservoirs. Geologic formations to be evaluated may include saline formations, depleting/depleted oil fields (but not specifically or primarily for the purpose of Enhanced Oil Recovery), or coal seams. The formation selected for characterization should represent a significant storage opportunity in the region with adequate seals to protect against adverse impacts on the overlying formation or risks to Underground Sources of Drinking Water (USDW) and the surface. The projects will also support the President’s Energy Goals: develop and deploy near zero emission coal technologies; make the U.S. a leader on climate change; transfer Carbon Capture and Sequestration (CCS) technology globally; reduce our greenhouse gas emissions 80 percent by 2050; and increase CCS technology funding.

National Energy Technology Laboratory

Recovery Act-Resource Assessment and Interconnection-Level Transmission Analysis and Planning Grant

Document Type:	Grants Notice
Funding Opportunity Number:	DE-FOA-0000068
Opportunity Category:	Other
Posted Date:	Jun 15, 2009
Creation Date:	Jun 15, 2009
Original Closing Date for Applications:	Aug 14, 2009
Current Closing Date for Applications:	Aug 14, 2009

Archive Date:	Sep 13, 2009
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Recovery Act
Category Explanation:	
Expected Number of Awards:	6
Estimated Total Program Funding:	
Award Ceiling:	\$0
Award Floor:	\$0
CFDA Number(s):	81.122 -- Electricity Delivery and Energy Reliability, Research, Development and Analysis
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

All types of domestic entities are eligible to apply except DOE/NNSA National Laboratory Contractors, other Federal agencies, non-DOE Federally Funded Research and Development Center (FFRDC) Contractors, and nonprofit organizations described in section 501(c)(4) of the Internal Revenue Code of 1986 that engaged in lobbying activities after December 31, 1995.

Description

The objective of this Funding Opportunity Announcement is to facilitate the development or strengthening of capabilities in each of the three interconnections serving the lower 48 states of the United States, to prepare analyses of transmission requirements under a broad range of alternative futures and develop long-term interconnection-wide transmission expansion plans. The interconnections are the Western Interconnection, the Eastern Interconnection, and the Texas Interconnection.

FY 2009 National Wetland Program Development Grants

Document Type:	Grants Notice
Funding Opportunity Number:	EPA-OW-OWOW-09-02
Opportunity Category:	Discretionary
Posted Date:	Jun 02, 2009
Creation Date:	Jun 02, 2009
Original Closing Date for Applications:	Jul 15, 2009 Please refer to the full announcement, including Section IV, for additional information on submission methods and due dates.
Current Closing Date for Applications:	Jul 15, 2009 Please refer to the full

announcement, including Section IV, for additional information on submission methods and due dates.

Archive Date: Aug 14, 2009
Funding Instrument Type: Cooperative Agreement Grant
Category of Funding Activity: Environment
Category Explanation:
Expected Number of Awards: 10
Estimated Total Program Funding: \$550,000
Award Ceiling: \$225,000
Award Floor: \$25,000
CFDA Number(s): 66.462 -- National Wetland Program Development Grants
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

See Section III of the announcement for additional eligibility information.

Description

The Wetland Program Development Grant (WPDG) Program, initiated in FY 1990, provides applicants an opportunity to carry out projects to develop and refine comprehensive wetland programs. The U.S. Environmental Protection Agency (EPA) is soliciting proposals from eligible applicants for projects that support and build state/tribal/local government wetland programs. All projects submitted for this competition must involve two or more states and/or tribes and/or benefit two or more states and/or tribes or be nationwide in scope. Proposals submitted by applicants must address one or more of the following five National Priority Areas of the WPDG Program: 1) State/Tribal Technical and Meeting Support; 2) Regulation; 3) Monitoring and Assessment; 4) Voluntary Restoration/Protection; and 5) Water Quality Standards for Wetlands. The authority for the grant program is Section 104(b)(3) of the Clean Water Act (CWA) which restricts the use of these grant funds to improving wetland programs by conducting or promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Implementation projects are not eligible for funding under this announcement.

[FY 2009 National Wetland Program Development Grants](http://www07.grants.gov/search/search.do?&mode=VIEW&flag2006=false&oppId=47714)

<http://www07.grants.gov/search/search.do?&mode=VIEW&flag2006=false&oppId=47714>

Additional Programs:

Hydroelectric Facility Modernization

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000120.pdf>

The Department of Energy is soliciting applications from industry members or industry-led partnerships that propose to develop, deploy, and test hydropower projects that would modernize the existing hydropower infrastructure in the U.S. and increase both the quantity and value of hydropower generation, including environmental performance. The program will focus on supporting the deployment of turbines and control technologies to increase and maximize system generation at existing non-Federal hydroelectric facilities.

Approximately \$25 million will be available for upgrades at large projects.

Approximately \$7 million will be available for upgrades at small projects.

Letter of intent due: July 22, 2009

Application deadline: August 20, 2009

Geologic Sequestration Training and Research

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000032.pdf>

The Geological Sequestration Training and Research Program will advance the United States in its position as the leader in technology for addressing climate change and for developing near-zero emission technologies to significantly reduce CO2 emissions from power plants. The results of these projects will make a vital contribution to the scientific, technical, and institutional knowledge necessary to establish frameworks for the development of commercial CCS projects. These projects will produce a trained workforce necessary for the CCS industry with skills and competencies in geology, geophysics, geomechanics, geochemistry and reservoir engineering disciplines.

Approximately \$13 million is expected to be available for this program.

Deadline for applications: August 11, 2009.

Advanced Energy Efficient Building Technologies

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000115.pdf>

The Department of Energy (DOE), National Energy Technology Laboratory (NETL), on behalf of the Office of Energy Efficiency and Renewable Energy's (EERE) Building Technologies Program (BTP), is seeking applications under six broad Areas of Interest.

1: Advanced Building Control Strategies, Communications and Information Technologies for Net-Zero Energy Buildings

2: Analysis, Design and Technical Tools

3: Building Envelope and Windows

4: Residential and Commercial HVAC and Crosscutting Air Conditioning and Refrigeration Research

5: Water Heating, Residential and Commercial Appliances and MELs

6: Solar Heating and Cooling (SHC)

Approximately \$25,000,000 to \$75,000,000 is expected to be available for new awards under this Announcement.

Deadline for applications: August 18

Solid State Lighting U.S. Manufacturing - Round 1

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000057.pdf>

The objective of this Funding Opportunity Announcement (FOA) is to achieve cost reduction of solid-state lighting for general illumination through improvements in manufacturing equipment, processes, or techniques. It is anticipated that success will lead to a more rapid adoption/installation of high-quality SSL products resulting in a significant reduction of energy use

and a corresponding reduction of environmental pollutants. A secondary objective is to maintain, in the case of light emitting diodes (LEDs), or establish, in the case of organic light emitting diodes (OLEDs), the manufacturing and technology base within the US.

Approximately \$22 million will be available for this program.

Deadline for applications: August 24, 2009

Building America Energy Efficient Housing Partnerships

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000099.pdf>

The Department of Energy (DOE), National Energy Technology Laboratory (NETL), on behalf of the Office of Energy Efficiency and Renewable Energy's (EERE's) Building Technologies (BT) Program, is seeking applications for Industry Teams to implement the Building America Program's research program for new and existing homes. This Funding Opportunity Announcement also offers a limited opportunity for Industry Teams to focus on stimulating the existing home retrofit market. This FOA includes two (2) Program Areas of Interest.

1. "Building America Teams," seeks Industry Teams to continue the highly effective partnerships Building America has established to implement the research and technical support program for new and existing homes.

2. "Building America Retrofit Teams," seeks Industry Teams to stimulate the existing home retrofit market through research and technical support to increase the efficiency gains and reduce the cost of retrofits.

Approximately \$25 million will be available for this program.

Deadline for applications: August 24, 2009

Training Program Development for Commercial Building Equipment Technicians, Building Operators, and Energy Commissioning Agents/Auditors

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000118.pdf>

The Department of Energy (DOE) National Energy Technology Laboratory (NETL), on behalf of the Office of Energy Efficiency and Renewable Energy's (EERE's) Building Technologies Program (BTP), is seeking applications for projects that focus on developing training programs for various building specialists. The programs shall use existing curricula or develop new training curricula for their course content. To achieve the full potential of energy efficient (and eventual net zero-energy) buildings, our Nation needs commercial building equipment technicians, operators, and energy commissioning agents/auditors who know how to properly run and tune building systems.

Approximately \$7.5 million will be available for this program.

Deadline for applications: September 1, 2009

Recovery Act: Smart Grid Demonstrations

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000036.pdf>

Smart Grid projects will include regionally unique demonstrations to verify smart grid technology viability, quantify smart grid costs and benefits, and validate new smart grid business models, at a scale that can be readily adapted and replicated around the country. Thus, awards made under this Announcement will include a requirement to ensure that the technologies demonstrated are widely available for use in the United States.

Approximately \$615,000,000 in Federal funds is expected to be available for new awards under this announcement.

Deadline for applications: August 26, 2009

Smart Grid Investment Grant Program

<http://www.nystar.state.ny.us/stimulus/DE-FOA-0000058.pdf>

The overall purpose of the SGIG is to accelerate the modernization of the nation's electric transmission and distribution systems and promote investments in smart grid technologies, tools, and techniques which increase flexibility, functionality, interoperability, cyber-security, situational awareness, and operational efficiency. This purpose will be accomplished through a merit-based, competitive solicitation for projects to receive Federal financial assistance for up to 50% percent of eligible project costs. This financial assistance is intended to enable measurable improvements that can result from accelerated achievement of a modernized electric transmission and distribution system, including:

- Reliability of the electric power system.
- Electric power system costs and peak demand.
- Consumer electricity costs, bills, and environmental impacts.
- Clean energy development and greenhouse gas emissions.
- Economic opportunities for businesses and new jobs for workers.

Approximately \$3.4 billion is expected to be available for new awards under this announcement.

Deadline for applications: Varies, see solicitation for details

Environmental Protection Agency

“Climate Showcase Communities” Grant

Document Type:	Grants Notice
Funding Opportunity Number:	EPA-OAR-CPPD-09-08
Opportunity Category:	Discretionary
Posted Date:	Jun 16, 2009
Creation Date:	Jun 16, 2009
Original Closing Date for Applications:	Jul 22, 2009 Please refer to the full announcement, including Section IV, for additional information on submission methods and due dates.
Current Closing Date for Applications:	Jul 22, 2009 Please refer to the full announcement, including Section IV, for additional information on submission methods and due dates.
Archive Date:	Aug 21, 2009
Funding Instrument Type:	Cooperative Agreement

Category of Funding Activity:	Environment
Category Explanation:	
Expected Number of Awards:	30
Estimated Total Program Funding:	\$10,000,000
Award Ceiling:	\$500,000
Award Floor:	
CFDA Number(s):	66.041 -- CLIMATE SHOWCASE COMMUNITIES GRANT PROGRAM
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

See Section III of the announcement for additional eligibility information.

Description

This notice announces the availability of funds and solicits applications from eligible entities to compete for financial assistance through the Climate Showcase Communities Grant Program. This program will assist local and tribal governments in developing plans, conducting demonstrations, and implementing projects that reduce greenhouse gas emissions while achieving additional environmental, economic, public health, and/or community benefits. The overall goal of the Climate Showcase Communities program is to create replicable models of sustainable community action that generate cost-effective and persistent greenhouse gas reductions while improving the environmental, economic, public health, or social conditions in a community.

Clean Air Research Centers Grant

Document Type:	Grants Notice
Funding Opportunity Number:	EPA-RC2009-STAR-C1
Opportunity Category:	Discretionary
Posted Date:	Jun 10, 2009
Creation Date:	Jun 10, 2009
Original Closing Date for Applications:	Nov 16, 2009 Please refer to the full announcement, including Section IV, for additional information on submission methods

and due dates.

Current Closing Date for Applications: Nov 16, 2009 Please refer to the full announcement, including Section IV, for additional information on submission methods and due dates.

Archive Date: Dec 16, 2009

Funding Instrument Type: Grant

Category of Funding Activity: Environment

Category Explanation:

Expected Number of Awards: 4

Estimated Total Program Funding: \$32,000,000

Award Ceiling: \$8,000,000

Award Floor:

CFDA Number(s): 66.509 -- Science To Achieve Results (STAR) Research Program

Cost Sharing or Matching Requirement: No

Eligible Applicants

State governments
County governments
City or township governments
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Private institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

See Section III of the announcement for additional eligibility information.

Description

Please note that grants under this RFA may involve the collection of Geospatial Information. The U.S. Environmental Protection Agency (EPA), as part of its Science to Achieve Results (STAR) program, is seeking applications for Clean Air Research Centers. EPA is interested in supporting research on the health effects of exposure to particulate matter (PM), ozone, and other air pollutants, both singly and in multipollutant atmospheres. Priority research areas include: explaining regional and temporal differences in air pollution risk; determining the origins and transformations of multipollutant atmospheres and their constituents; defining exposure/concentration-response relationships; assessing susceptibility; understanding PM effects in a multipollutant context; and developing greater understanding of PM and ozone health effects. EPA is seeking proposals for integrated, multidisciplinary research centers that will advance understanding air pollution and human health effects.

Expected Number of Awards:	10
Estimated Total Program Funding:	\$24,000,000
Award Ceiling:	\$4,000,000
Award Floor:	
CFDA Number(s):	66.203 -- Environmental Finance Center Grants
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

See Section III of the announcement for additional eligibility information.

Agency Name

Environmental Protection Agency

Description

This notice announces the availability of funds and solicits applications from eligible entities for Environmental Finance Centers (EFCs) that provide multi-media environmental finance expertise and outreach to the regulated communities (e.g., states, tribes, local governments, and the private sector) to help them meet environmental requirements. The objective is to help the states, tribes, local governments, and private entities find effective and innovative ways to help address the growing costs of protecting public health and the environment in a sustainable manner. Under this program, EFC's will be established across the nation to provide regulated parties with finance-related training, technical assistance, finance studies, and other analytical support (eligible services) to help them develop solutions to the critical "how-to-pay" issues associated with meeting environmental goals. The EFCs will educate regulated parties on lowering costs, increasing investments, improving financial capacity, encouraging full cost pricing, and identifying and evaluating financing options.

Advancing Public Health Protection through Water Infrastructure Sustainability Grant

Document Type:	Grants Notice
Funding Opportunity Number:	EPA-G2009-STAR-F1
Opportunity Category:	Discretionary
Posted Date:	May 20, 2009
Creation Date:	May 20, 2009
Original Closing Date for Applications:	Aug 17, 2009 Please refer to the full announcement, including Section IV, for additional information on submission methods and due dates.
Current Closing Date for Applications:	Aug 17, 2009 Please refer to the full announcement, including Section IV, for additional information on submission methods and due dates.
Archive Date:	Sep 16, 2009
Funding Instrument Type:	Cooperative Agreement Grant
Category of Funding Activity:	Environment
Category Explanation:	
Expected Number of Awards:	8
Estimated Total Program Funding:	\$6,000,000
Award Ceiling:	\$600,000
Award Floor:	\$300,000
CFDA Number(s):	66.509 -- Science To Achieve Results (STAR) Research Program
Cost Sharing or Matching Requirement:	No

Eligible Applicants

State governments
County governments
City or township governments
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Private institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

See Section III of the announcement for additional eligibility information.

Description

These awards may involve the collection of "Geospatial Information." The U.S. Environmental Protection Agency (EPA), as part of its Science to Achieve Results (STAR) program, is seeking new and innovative research applications that link opportunities to advance public health protection with improvements in the condition and function of the water infrastructure. For purposes of this RFA, the water infrastructure includes centralized and decentralized systems that convey, store, and distribute potable and non-potable water and collect and manage municipal and industrial wastewater, stormwater, and on-site rainwater. Innovation can take the form of wholly new applications or applications that build on existing knowledge and approaches for new uses. The focus of the solicitation is on improving the effectiveness of the water infrastructure for protecting public health. Projects should clearly demonstrate an integrated, multi-disciplinary approach that leads to advances in design, operation, and management of the water infrastructure and should directly tie those advances to public health protection in conjunction with improving water efficiency and reducing energy requirements.

Additional Information on Eligibility:

See Section III of the announcement for additional eligibility information.

Description

Geospatial information may be involved. The U.S. Environmental Protection Agency (EPA), as part of its Science to Achieve Results (STAR) program, is seeking applications to develop new or improved environmental public health indicators (EPHIs) to build linkages between environmental hazards, human exposures, and public health outcomes. The aim of the research is to develop indicators that can be used for long-term tracking and surveillance of environmental public health, making better informed decisions, and assessing the actual impacts of environmental risk management decisions. Proposed projects should capitalize on existing knowledge bases, data sources, or cohorts to develop EPHIs that reflect a better understanding of the relationships between environmental conditions, human exposure, and/or public health outcomes. Novel application of statistical methods or models may be needed to establish probable relationships between existing datasets or investigate the consequences of environmental actions and policy changes.

Description

EPA's Office of Pesticide Programs (OPP) in coordination with the EPA Regional Offices, is soliciting proposals to further the pesticide risk reduction goals of the Pesticide Environmental Stewardship Program (PESP). Proposed projects must address implementation of integrated pest management approaches that reduce the risks associated with pesticide use in an agricultural or nonagricultural setting and demonstrate the importance and relevancy of the project to the goals of PESP. The estimated amount of funding for FY 2009 is approximately \$500,000.

Faith-Based Organizations

Description

For more than forty years, the U.S. Administration on Aging (AoA) has served as the effective and visible advocate for older Americans at the Federal level while at the same time providing support and guidance to the Aging Services Network. In this role, AoA is committed to ensuring that older Americans have the support they need to remain in their homes and communities for as long as possible. Since the passage of the Older Americans Act in 1965, the Aging Network has grown to encompass an array of state, local and community organizations and entities responsible for promoting the development of a comprehensive and coordinated system of home and community based services for older people and, most recently, family caregivers. The Network consists of 56 State Units on Aging, 629 Area Agencies on Aging, 246 Tribal organizations, nearly 20,000 community services provider organizations and 500,000 volunteers. The Network reaches into every community and plays a key role in delivering services and supporting consumer-centered systems of care to some of the most vulnerable members of society. Reauthorizations of the Older Americans Act in 2000 and 2006 took significant steps towards positioning AoA and the Aging Services Network to be a leader in the provision of long-term care home and community based services. These steps have realized the following:; The establishment/expansion of Aging and Disability Resource Centers (ADRCs);; The incorporation of evidence-based disease and disability prevention programs into the array of programs and services currently provided by the Aging Services Network; and  The launch of consumer-directed nursing home diversion programs targeted to individuals before they spend down to Medicaid. AoA Funded Naturally Occurring Retirement Communities In addition to these important efforts, AoA has provided funding to various community organizations to develop innovative ways of supporting seniors as they age in place in various settings such as, apartment buildings and neighborhoods with a large percentage of households headed by older adults. For Federal fiscal years 2003 through 2008 more than \$22 million in federal

funds and match exceeding \$7 million has been used to establish more than 40 supportive service programs for older adults living independently in geographically defined residential areas and building complexes. An additional \$1.5 million has been allocated for similar programs in FY-2009. Labeled “NORC’s or ‘Naturally Occurring Retirement Communities,’ these programs serve more than 20,000 participants over the age of 75 and many are 85 and older. The accomplishments of the AoA funded NORCs include: • Enhancing the ability of older adults living in a residential community to continue living independently • Increasing healthy aging behaviors through exercise, recreation, socialization, educational and culturally appropriate activities • Identifying needs of at risk residents, facilitating access to existing community and government resources and create gap filling supportive services For purposes of this grant program, a ‘Naturally Occurring Retirement Community’ (NORC) is defined as a community with a concentrated population of older individuals, which may include a residential building, a housing complex, an area (including a rural area) of single family residences, or a neighborhood composed of age-integrated housing— (A) where— (i) 40 percent of the heads of households are older individuals; or (ii) a critical mass of older individuals exists, based on local factors that, taken in total, allow an organization to achieve efficiencies in the provision of health and social services to older individuals living in the community; and (B) that is not an institutional care or assisted living setting. AoA Awards to Livable Communities Livable Communities are places where people of all ages can live comfortably. In 2005 the Administration on Aging (AoA) sponsored a competition to honor some of the country’s most livable places. For the competition, AoA defined livable communities as cities and counties that have successfully taken specific actions to make significant improvements in the following six key areas: • affordable/accessible housing; • affordable/accessible transportation; • accessible built environments; • work, education and volunteer opportunities; • access to health and supportive services; and • citizen participation in civic and cultural activities. In addition to honoring the efforts of seven communities, the competition served to help answer the questions ‘What makes a community “livable” for people across the life span?’ and ‘How can communities meet the needs of residents who have invested a lifetime in a place and want to grow older in their own homes?’ The goal of the Community Innovations for Aging In Place (CIAIP) grant project will be to build on the success of AoA funded NORCs and AoA Livable Communities award winners, while integrating additional innovative models that support aging in place.

Recovery Act Limited Competition: Small Business Catalyst Awards for Accelerating Innovative Research (R43)

NIH invites grant applications from small business concerns that propose to accelerate innovation through high risk, high reward research and development (R&D) that has commercial potential and is relevant to the mission of the NIH. The Small Business Catalyst Award is further expected to support entrepreneurs of exceptional creativity, drawn from scientific and technological environments beyond NIH, who propose pioneering and possibly transformative approaches to

addressing major biomedical or behavioral challenges with the potential for downstream commercial development.

Letters of Intent Due: August 3, 2009

Award Ceiling:	\$1,000,000
Award Floor:	\$450,000
CFDA Number(s):	93.605 -- Family Connection Grants
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Social Security Act %901 427(a) identifies eligible applicants as "State, local, or tribal child welfare agencies, and private nonprofit organizations that have experience in

working with foster children or children in kinship care arrangements." If the applicant is a private organization, documentation of support from the relevant local or State child welfare agency or a description of how the organization plans to coordinate its services and activities with those offered by the relevant local or State child welfare agency is required. Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

Description

The Administration for Children and Families (ACF), Children's Bureau, announces the availability of competitive grant funds authorized by the Fostering Connections to Success and Increasing Adoptions Act of 2008 (P.L. 110-351). The purpose of this funding announcement is to help children who are in or are at-risk of entering into foster care reconnect with family members by developing and implementing grant programs in the areas of kinship navigator programs; programs utilizing intensive family-finding efforts to locate biological family and reestablish relationships; programs utilizing family group decision-making meetings; or residential family treatment programs. Under this Program Announcement applicants will submit proposals for one, or any combination of, the aforementioned four inter-related grant program areas, which comprise elements of a strong system of services to support family connections. Applicants must clearly state for which of these four program areas, or which combination of program areas, they are applying, and must justify their selection of program area(s) in terms of documented needs associated with specified project goals and objectives. As demonstration projects, grantees will develop these programs as identifiable sites that other States/locales seeking to implement family connection services for this population can look to for guidance, insight, and possible replication. Applicants should note that the authorizing legislation specifies the following: -- Initial Federal award levels will decline and non-Federal share match levels will increase in the third year of the three-year grant period, as required by %901 427(d) of the Act; and -- No more than 50% of the non-federal share may be in kind, as required by %901 427(e) of the Act.

Archive Date: Aug 12, 2009

Funding Instrument Type: Grant

Category of Funding Activity: Income Security and Social Services

Category Explanation:

Expected Number of Awards: 91

Estimated Total Program Funding: \$13,377,274

Award Ceiling: \$200,000

Award Floor: \$0

CFDA Number(s): 93.623 -- Basic Center Grant

Cost Sharing or Matching Requirement: Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Public and non-profit private entities and coordinated networks of such entities are eligible applicants under this announcement. Additional information on eligibility may be found in the full announcement. Current BCP grantees with project periods ending on or before September 29, 2009, and all other eligible applicants not currently receiving BCP funds, may apply for a new competitive BCP grant under this announcement. Current BCP grantees (including sub-grantees) with one or two years remaining in their project period may not apply for a new BCP grant for the community they currently serve. These grantees will receive instructions from their respective RHY Specialist on procedures for applying for non-competitive continuation grants. Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

Description

The Family and Youth Services Bureau (FYSB) is accepting applications for the Basic Center Program (BCP), which is authorized by the Runaway and Homeless Act to address runaway and homeless youth (RHY) problems. BCPs provide an alternative for runaway and homeless youth who might otherwise end up with law enforcement or in the child welfare, mental health, or juvenile justice systems. Each BCP must provide runaway and homeless youth with a safe and appropriate shelter, individual, family, and group counseling as appropriate, and aftercare.

Archive Date:	Jul 26, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Income Security and Social Services
Category Explanation:	
Expected Number of Awards:	5
Estimated Total Program Funding:	\$1,000,000
Award Ceiling:	\$200,000
Award Floor:	\$200,000
CFDA Number(s):	93.631 -- Developmental Disabilities Projects of National Significance
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

State governments
County governments
City or township governments
Special district governments
Independent school districts
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Public housing authorities/Indian housing authorities

Native American tribal organizations (other than Federally recognized tribal governments)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

42 U.S.C. § 90115082 (DD Act § 901 162) authorizes grants only to "public or private nonprofit entities." The following entities from the States and Territories listed below are eligible to apply. States and Territories that were not funded to implement a Family Support 360 grant in FY 2004 are eligible to apply. These are: Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Iowa, Kentucky, Mississippi, Nevada, New Jersey, North Dakota, Ohio, Puerto Rico, South Carolina, Tennessee, Virgin Islands, Virginia, Washington, Wyoming. The application must include a letter from the Governor designating the lead agency for the Family Support 360 Implementation Grant. If the designated lead agency is not to be a State or local public human services agency, the Governor must, in a letter to the Commissioner of ADD also identify a State or local human service agency that will be the lead partner with the private lead agency which is being designated by the Governor. The Governor's letter must accompany the application at the time of submission for funding consideration. Applications that do not include this letter will not be reviewed and ranked for funding consideration. Faith-based and community organizations are eligible to apply. Foreign entities are not eligible under this announcement.

Description

The Administration on Developmental Disabilities (ADD) within the Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), announces the availability of Fiscal Year (FY) 2009 funds to award grants to plan and implement up to five Family Support 360 Centers for families of persons with developmental disabilities. The Developmental Disabilities Assistance and Bill of Rights Act of 2000, Public Law (P.L.) 106-402, 42 United States Code (U.S.C.) Section 15081(2) authorizes ADD to "support the development of national and State policies that reinforce and promote, with the support of families, guardians, advocates, and communities, of individuals with developmental disabilities, the self-determination, independence, productivity, and integration and inclusion in all facets of community life of such individuals through- (A) family support activities" (DD Act of 2000, § 901 161(2)).

Funding Instrument Type:	Grant
Category of Funding Activity:	Income Security and Social Services
Category Explanation:	
Expected Number of Awards:	3
Estimated Total Program Funding:	\$600,000
Award Ceiling:	\$200,000
Award Floor:	\$200,000
CFDA Number(s):	93.550 -- Transitional Living for Homeless Youth
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Entities eligible to apply for the Demonstration grants will be the Departments and/or agencies that administer independent living programs for youth aging out of foster care (e.g., Human Services and Child Welfare Agencies) in the 50 States, the District of Columbia, and Puerto Rico. The applicant Departments and/or Agencies must commit to supporting and enhancing the goals, directions and outcomes of this Demonstration (including supporting the Local Collaborating Partner in carrying out project goals and activities). Foreign entities are not eligible under this announcement.

Agency Name

Administration for Children and Families

Description

The Administration for Children and Families (ACF), Administration on Children, Youth and Families (ACYF), Family and Youth Services Bureau (FYSB) is accepting applications for a five-year Demonstration project targeted to young people ages 16-21, in rural areas (including Tribal lands and other rural Native communities) who are approaching independence and young adulthood, but have few or no connections to a supportive, family structure or community. For purposes of this announcement, "rural" is defined as any geographical area that: (a) has a population under 20,000; and (b) is located outside a Standard Metropolitan Statistical Area. This collaborative Demonstration project, funding States to work with local community-based organizations, is intended to influence policies, programs and practices that affect the design and delivery of services to runaway and homeless youth in Transitional Living Programs (TLP), as well as to homeless youth aging out of State child welfare systems and into Independent Living Programs (ILP). The Children's Bureau of the Administration for Children and Families will provide technical assistance to support the collaborative engagement of ILP grantees in the project.

Description

The Administration on Developmental Disabilities (ADD) within the Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS) announces the availability of Fiscal Year (FY) 2009 funds to award grants to develop training materials and provide training to families of children with disabilities. This funding opportunity will provide and promote leadership training by and for families of children with disabilities, as described in Section 202(b)(2) of the Families of Children with Disabilities Support Act of 2000. Such training shall be designed to increase access to and availability of family support services and must address policy development, implementation and evaluation of family support services for families of children with disabilities. This funding opportunity will be open to national non-profit organizations with demonstrated capacity at the state and local levels to foster and provide direct services to families of children with disabilities.

2009 Announcement of Availability of Funds for Family Planning Male Training Cooperative Agreement Grant

Document Type:	Grants Notice
Funding Opportunity Number:	PA-FPT-09-015
Opportunity Category:	Discretionary
Posted Date:	Jun 01, 2009
Creation Date:	Jun 01, 2009
Original Closing Date for Applications:	Jul 17, 2009 Refer to the grant announcement regarding application submission requirements, dates and times.
Current Closing Date for Applications:	Jul 17, 2009 Refer to the grant announcement regarding application submission requirements, dates and times.
Archive Date:	Aug 16, 2009
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	
Award Ceiling:	\$500,000
Award Floor:	\$400,000
CFDA Number(s):	93.260 -- Family Planning Personnel Training
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Any public or nonprofit private entity located in a State (which includes one of the 50 United States, the District of Columbia, Commonwealth of Puerto Rico, U.S. Virgin Islands, Commonwealth of the Northern Mariana Islands, American Samoa, Guam, Republic of Palau, Federated States of Micronesia, and the Republic of the Marshall Islands) is eligible to apply for a cooperative agreement under this announcement. Faith-based organizations and American Indian/Alaskan Native/Native American (AI/AN/NA) organizations are eligible to apply for this Title X Family Planning Male Training Cooperative Agreement. Applicant organizations must demonstrate significant experience in the design, development, implementation, successful completion and evaluation of training activities. In addition, the successful applicant must demonstrate

skill and experience in providing training to diverse, community-based entities. The successful applicant will provide evidence of familiarity with male FP/RH issues, the Title X Family Planning program and the ability to translate evidence-based information into training activities. The award will be made only to an organization or agency which has met all applicable requirements and which demonstrates the capability of providing the proposed services.

Agency Name

Office of Public Health and Science

Description

This announcement seeks proposals from public and nonprofit private entities to establish and operate a training center with a specific focus on FP/RH information, education and clinical services targeting males. It is anticipated that one cooperative agreement in the amount of \$400,000 to \$500,000 will be awarded. A cooperative agreement is an award instrument of financial assistance where "substantial involvement" is anticipated between the HHS awarding agency and the recipient during performance of the contemplated project or activity. "Substantial involvement" means that the recipient can expect Federal programmatic collaboration or participation in managing the award. The training center funded through this cooperative agreement will be required to provide training that will enhance and support quality information, education, communication and clinical services for males served in Title X-funded agencies throughout the United States.

Recovery Act Limited Competition: Biomedical Research, Development, and Growth to Spur the Acceleration of New Technologies (BRDG-SPAN) Pilot Program (RC3)

<http://grants.nih.gov/grants/guide/rfa-files/RFA-OD-09-008.html>

The purpose of this pilot program is to address the funding gap between promising research and development (R&D) and transitioning to the market -- often called the "Valley of Death -- by contributing to the critical funding needed by applicants to pursue the next appropriate milestone(s) toward ultimate commercialization; i.e., to carry out later stage research activities necessary to that end. This program aims to accelerate the transition of research innovations and technologies toward the development of products or services that will improve human health, help advance the mission of NIH and its Institutes and Centers (ICs), and create significant value and economic stimulus. This program also aims to foster partnerships among a variety of research and development (R&D) collaborators working toward these aims.

Letters of Intent Due: August 3, 2009

Application Deadline: September 1, 2009

Recovery Act Limited Competition: Protection of Human Health by Immunology and Vaccines (U01, U19)

<http://grants.nih.gov/grants/guide/rfa-files/RFA-AI-09-040.html>

Applications are sought that propose to study human immune responses (1) following infection, (2) prior to and following vaccination against an infectious disease, or (3) prior to and following treatment with an immune adjuvant that targets a known innate immune receptor(s). The purpose of this FOA is to capitalize on recent advances in immune profiling to measure the diversity of human immune responses under a variety of conditions, using bioinformatic, multiplex, and/or systems biology approaches to study samples from well-characterized human cohorts and to measure aspects of the human transcriptome and/or proteome.

FY 2009 American Recovery and Reinvestment Act Fire Station Construction Grant Program

Document Type:	Grants Notice
Funding Opportunity Number:	DHS-09-AFG-115-00R
Opportunity Category:	Other
Posted Date:	May 29, 2009
Creation Date:	May 29, 2009
Original Closing Date for Applications:	Jul 10, 2009 Please note that the application window for this opportunity opens the week of June 8th in the Assistance to Firefighters Grant system.
Current Closing Date for Applications:	Jul 10, 2009 Please note that the application window for this opportunity opens the week of

June 8th in the Assistance to Firefighters Grant system.

Archive Date:	Aug 09, 2009
Funding Instrument Type:	Other
Category of Funding Activity:	Recovery Act
Category Explanation:	
Expected Number of Awards:	70
Estimated Total Program Funding:	\$210,000,000
Award Ceiling:	\$15,000,000
Award Floor:	
CFDA Number(s):	97.115 -- ARRA Assistance to Firefighters AFG
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Non-Federal Fire Departments and state and local governments that fund/operate fire departments are eligible for SCG.

Description

The American Recovery and Reinvestment Act (ARRA) (Fire) Station Construction Grants (SCG) are authorized by the American Recovery and Reinvestment Act of 2009 (P.L. 111-5). The total amount of funds available under the FY 2009 ARRA SCG is \$210,000,000. The purpose of the FY 2009 ARRA SCG is to create or save jobs in recession-hit areas and achieve other purposes stated in ARRA, and achieve AFG goals of firefighter safety and improved response capability/capacity based on need through the construction, renovation or modification of fire stations.

<http://www.firegrantsupport.com>
<http://www07.grants.gov/search/search.do?&mode=VIEW&flag2006=false&oppId=47638>

SCG Application Deadline

Submissions Due by July 10, 2009

Please submit your 2009 Assistance to Firefighters Fire Station Construction Grants (SCG) application no later than 5 p.m. Eastern daylight time on **Friday, July 10, 2009**. As always, we recommend that you do not wait until the last minute to submit!

If you have not started, you can find the online application at <http://firegrantsupport.com/afscg/>.

The Department of Homeland Security's Assistance to Firefighters Fire Station Construction Grants (SCG) will provide financial assistance directly to fire departments on a competitive basis to build new or modify existing fire stations in order for departments to enhance their response capability and protect the community they serve from fire and fire-related hazards. The authority for SCG is derived from the American Recovery and Reinvestment Act (ARRA) of 2009 (Public Law 111-5). **Congress appropriated a total of \$210 million for this Fiscal Year (FY) 2009 program.**

SCG staffs a help desk throughout the (FY) 2009 SCG application period. The help desk staff is standing by to provide assistance with navigation through the automated application process as well as provide programmatic assistance with respect to questions of eligibility. Call the help desk at **1-866-274-0960** or send e-mail to firegrants@dhs.gov.

The help desk is open during the application period from 8 a.m. - 8 p.m., Monday through Friday; and 9 a.m. - 4 p.m., on Saturday.

FEMA Regional Fire Program Specialists located in each of the FEMA Regions can assist fire service applicants with the application process. Interested parties may contact the SCG help desk for information on contacting the nearest regional specialist.

FEMA

FY 2009 American Recovery and Reinvestment Act Transit Security Grant Program – Operational Packages Grant

Document Type:	Grants Notice
Funding Opportunity Number:	DHS-09-GPD-113-2231
Opportunity Category:	Other
Posted Date:	May 29, 2009
Creation Date:	May 29, 2009
Original Closing Date for Applications:	Jun 15, 2009
Current Closing Date for Applications:	Jun 15, 2009
Archive Date:	Jul 15, 2009
Funding Instrument Type:	Other

Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Public Transportation Agencies

Description

The American Recovery and Reinvestment Act (ARRA) Transit Security Grant Program (TSGP) is authorized the American Recovery and Reinvestment Act of 2009 (P.L. 111-5) and the Implementing Recommendations of the 9/11 Commission Act of 2007 (P.L. 110-53) (the 9/11 Act). ARRA TSGP will focus on the use of visible, unpredictable deterrence through the funding of Operational Packages for canine teams, mobile explosives detection screening teams, and Anti-Terrorism teams both due to their effectiveness in reducing risk to transit systems and their potential for job creation. In addition, funding will be provided for capital projects including Multi-User High-Density Key Infrastructure Protection, Single-User High-Density Key Infrastructure Protection, Key Operating Asset Protection, and Other Mitigation Activities. FEMA asks applicants to submit their application package through Grants.gov. However, if issues arise with Grants.gov, FEMA will also allow applicants to submit their application package directly through OJP's Grant Management System (GMS). For instructions on how to apply directly into GMS for this opportunity, please see the attachment under the "full announcement" page above. PLEASE NOTE: Although the Assurances for Construction Programs (SF-424D) form is listed as optional in the Grants.gov application package, applicants who are applying for construction projects MUST complete this form.

Department of Housing and Urban Development**Healthy Homes Technical Studies Grant**

Document Type:	Grants Notice
Funding Opportunity Number:	FR-5300-N-07
Opportunity Category:	Other
Posted Date:	Jun 17, 2009
Creation Date:	Jun 17, 2009
Original Closing Date for Applications:	Aug 18, 2009
Current Closing Date for Applications:	Aug 18, 2009
Archive Date:	Aug 19, 2009
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Housing
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$4,000,000
Award Ceiling:	\$800,000
Award Floor:	
CFDA Number(s):	14.906 -- Healthy Homes Technical Studies Grants
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Academic and non-profit institutions located in the United States, state and units of general local government, and federally recognized Native American tribes are eligible under all existing authorizations. For-profit firms also are eligible; however, they are not allowed to earn a profit from the project. Applications to supplement existing projects are eligible to compete with applications for new awards. Federal agencies are not eligible to submit applications. The FY 2009 General Section identifies threshold requirements that must be met for an organization to receive an award.

Description

HUD is funding studies to improve HUD's and the public's knowledge of housing-related health and safety hazards, and to improve or develop new hazard assessment and control methods, with a focus on key residential health and safety hazards. The overall purpose of the Healthy Homes Technical Studies program is to gain knowledge to

improve the efficacy and cost-effectiveness of methods for evaluation and control of housing-related health and safety hazards.

Housing Counseling Program Grant

Document Type:	Grants Notice
Funding Opportunity Number:	FR-5300-N-02
Opportunity Category:	Discretionary
Posted Date:	Jun 16, 2009
Creation Date:	Jun 16, 2009
Original Closing Date for Applications:	Jul 17, 2009
Current Closing Date for Applications:	Jul 17, 2009
Archive Date:	Jul 18, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Housing
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$58,000,000
Award Ceiling:	
Award Floor:	
CFDA Number(s):	14.169 -- Housing Counseling Assistance Program
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligible applicants include: HUD-approved Local Housing Counseling Agencies (LHCAs); HUD-approved national and regional intermediaries (Intermediaries); State Housing Finance Agencies (SHFAs); and HUD-approved Multi-State Organizations (MSOs).

Description

This program supports the delivery of a wide variety of housing counseling services to homebuyers, homeowners, low- to moderate-income renters, and the homeless. The primary objectives of the program are to improve financial literacy, expand homeownership opportunities, improve access to affordable housing and preserve

homeownership. Counselors provide guidance and advice to help families and individuals improve their housing conditions and meet the responsibilities of tenancy and homeownership. Counselors also help borrowers avoid inflated appraisals, unreasonably high interest rates, unaffordable repayment terms, and other conditions that can result in a loss of equity, increased debt, default, and eventually foreclosure. Additionally, counselors may provide counseling services to homeowners to prevent or resolve mortgage delinquency, default, and foreclosure, with the primary objective to preserve homeownership. Counselors provide guidance and advice to help families and individuals meet the responsibilities of homeownership and modify or refinance their loans to avoid unreasonably high interest rates, unaffordable repayment terms, and other conditions that can result in a loss of equity, increased debt, default, and eventually foreclosure. Applicants funded through this program may also provide Reverse Mortgage Counseling to elderly homeowners who seek to convert equity in their homes into income that can be used to pay for home improvements, medical costs, living expenses, or other expenses.

Housing Counseling Training Program Grant

Document Type:	Grants Notice
Funding Opportunity Number:	FR-5300-N-03
Opportunity Category:	Discretionary
Posted Date:	Jun 16, 2009
Creation Date:	Jun 16, 2009
Original Closing Date for Applications:	Jul 17, 2009
Current Closing Date for Applications:	Jul 17, 2009
Archive Date:	Jul 18, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Housing
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$5,000,000
Award Ceiling:	
Award Floor:	
CFDA Number(s):	14.316 -- Housing Counseling Training Program
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Applicants must be public or private nonprofit organizations and must have “tax exempt” status under section 501(a) pursuant to section 501(c)(3) of the Internal Revenue Code (26 USC 501(a) and (c)(3)). Applicants must have at least two years of experience providing the majority of types of housing counseling training services nationwide that are both listed under Section III.C.2 of this NOFA and proposed in their application. The only exception to this requirement is that public or nonprofit organizations with at least 2 years experience providing Reverse Mortgage counseling training or Fair Lending Abuse and Mortgage Fraud training nationwide can apply for grants for providing reverse mortgage counseling training or Fair Lending Abuse and Mortgage Fraud training exclusively. Applicants may utilize in-house staff, sub-grant recipients, consultants, and networks of local organizations with requisite experience and capacity. However, one organization must be designated as the primary applicant. Sub-grantees must be public or private nonprofit organizations and must have “tax exempt” status under section 501(a) pursuant to section 501(c)(3) of the Internal Revenue Code [26 USC 501(a) and (c)(3)]. The Work Plan must indicate that the applicant is capable of providing all the housing counseling training topics listed in section III.C. The only exceptions to this requirement are organizations proposing to provide Reverse Mortgage counseling training, or Fair Lending Abuse and Mortgage Fraud training, exclusively. The proposal must include a scholarship element, detailing the full or partial costs to be covered, including travel, hotel, and tuition expenses to be awarded to housing counselors. The proposed training program must be national in scope.

Description

Funds are available to provide, under cooperative agreements with HUD, training activities designed to improve and standardize the quality of counseling provided by housing counselors employed by “participating agencies.” Participating agencies are all housing counseling and intermediary organizations participating in HUD’s Housing Counseling Program, including HUD-approved agencies, and affiliates and branches of HUD-approved intermediaries, HUD-approved Multi-state organizations, and state housing finance agencies.

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education
Individuals
For profit organizations other than small businesses
Small businesses

Description

The United States Fish and Wildlife Service (USFWS) is an environmental Federal Agency with offices throughout the United States. Through on-site activities located at a variety of field stations, including wildlife refuges, fish hatcheries, and ecological services offices, individuals or groups will be introduced to natural resource careers through “hands-on” work with, and training by, natural resource professionals employed by the USFWS. The goal is to help develop a new generation of enthused and effective conservationists and ecologists. Each selected individual or group is given the opportunity to serve a seasonal on-site assignment, usually scheduled between June 1st and September 30th. During the assignments, individuals or groups are introduced to various real-world conservation and rehabilitation activities such as invasive species management, habitat restoration, wildlife management, and public education and interpretation, mixed with informal and formal training sessions directed by USFWS. The USFWS hereby invites submission of proposals from all potential sources willing and able to cooperatively administer a program for identifying and recruiting individuals or groups for assignments at various USFWS stations.

Recovery Act - Partners for Fish and Wildlife Program Grant

Document Type:	Grants Notice
Funding Opportunity Number:	ARRA-PARTNERS-2009
Opportunity Category:	Other
Posted Date:	May 29, 2009
Creation Date:	May 29, 2009
Original Closing Date for Applications:	Sep 30, 2009
Current Closing Date for Applications:	Sep 30, 2009
Archive Date:	Oct 01, 2009
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Recovery Act
Category Explanation:	
Expected Number of Awards:	40
Estimated Total Program Funding:	\$9,000,000
Award Ceiling:	\$25,000
Award Floor:	\$0
CFDA Number(s):	15.656 -- Recovery Act Funds - Habitat Enhancement, Restoration and Improvement
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Private landowners, Tribal Governments, local governments, state governments, educational institutions and organizations. Contact your local Partners for Fish and Wildlife Program coordinator if you are interested in technical and financial assistance with a habitat restoration project. A listing of state Partners for Fish and Wildlife Program coordinators is available at <http://www.fws.gov/partners/> You may also contact the Branch of Habitat Restoration, Phone: 703-358-2201.

Description

The U.S. Fish and Wildlife Service is announcing the availability of funding under the American Recovery and Reinvestment Act of 2009 for habitat restoration through the Partners for Fish and Wildlife Program. The Partners for Fish and Wildlife Act authorizes the Secretary of Interior to provide technical and financial assistance through the Partners for Fish and Wildlife Program to private landowners interested in restoring, enhancing, and managing fish and wildlife habitats on their own lands. Under the American Recovery and Reinvestment Act of 2009 additional funding is available for habitat restoration through the Partners for Fish and Wildlife Program. These Recovery Act funds are available for habitat restoration projects that address high priority wetland, upland, or riparian habitats in selected geographic areas. Projects must provide direct benefits to Federal Trust species (i.e., migratory birds, threatened and endangered species, inter-jurisdictional fish, certain marine mammals, and species of international concern). It is a goal of the program to secure at least 50 percent of project costs from non-Service sources, but this goal applies to the national program as a whole, and does not have to be achieved on a project-by-project basis. Funding above \$25,000 for an individual project must be approved at the Washington Office level. If you are interested in requesting assistance for a potential project under the Partners for Fish and Wildlife Program you must contact your local coordinator for information about funding and technical assistance availability. A listing of coordinators by state is available at <http://www.fws.gov/partners/>.

Category Explanation:	
Expected Number of Awards:	50

Estimated Total Program Funding: \$15,000,000
Award Ceiling: \$300,000
Award Floor: \$100,000
CFDA Number(s): 81.086 -- Conservation Research and Development
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Agency Name

Golden Field Office

Description

The full Funding Opportunity Announcement (FOA) is posted in FedConnect, and is found by going to https://www.fedconnect.net/FedConnect/PublicPages/PublicSearch/Public_Opportunities.aspx.

Under Search Criteria, select Reference Number, and in the next field enter the FOA number (you may also search by other criteria). It is the responsibility of the applicant, prior to the Application due date and time, to verify successful transmission. Use the Quick Start Guide to assist you with FedConnect: https://www.fedconnect.net/FedConnect/PublicPages/FedConnect_Ready_Set_Go.pdf

The purpose of this FOA, "Industrial Energy Efficiency Grand Challenge", is to fund cost-shared development of transformational industrial processes and technologies that reduce the energy intensity (million Btu's per unit system output) or greenhouse gas emissions (carbon equivalent) of the system by a minimum of 25 percent while providing a return on investment of 10 percent or greater. The proposed requirement complies with the following goal and strategy of the Energy Security Theme of DOE's 2006 Strategic Plan: Goal 1.4 Energy Productivity: Cost effectively improve the energy efficiency of the U. S. economy. Pertinent strategy to meet this goal: Partner with energy-intensive industries to develop transformational manufacturing processes and technologies that enable more efficient use of energy in industrial processes. The FOA is in support of the Energy Efficiency and Renewable Energy (EERE) mission to strengthen America's energy security, environmental quality, and economic vitality in public-private partnerships that enhance energy efficiency and productivity. It would help accomplish the goal of EERE's Portfolio Priority 6, "Increase the Energy Efficiency / Reduce the Energy Intensity of Industry". In support of the above mission and goals, the Industrial Technologies Program (ITP) of EERE defined its mission in 2007 as: "Improve national security, climate and environment, and economic competitiveness by transforming the way U. S. industry uses energy" and set a goal to "Drive a 25 percent reduction in U. S. industrial energy intensity by 2020 in support of EPAct 2005". The planned solicitation will select and fund concept definition Research and Development (R and D) studies to

develop transformational manufacturing processes and technologies that meet the grand challenges of energy-intensive industries. Industrial collaboration is strongly recommended, and cost sharing is required. APPLICATIONS MUST BE SUBMITTED THROUGH FEDCONNECT AT <https://www.fedconnect.net/> TO BE CONSIDERED FOR AWARD. NOTE: Organizations with system-to-system capabilities with Grants.gov for their submissions may continue to use their systems, and their applications will be accepted in Grants.gov to be considered for award. To submit an application in response to this FOA, Applicants must be registered with FedConnect. Before you can register with FedConnect, you will need the following: 1. Your company's DUNS (including plus 4 extension if applicable). If you don't know your company's DUNS or if your company does not have a DUNS you can search for it or request one at <http://fedgov.dnb.com/webform/displayHomePage.do> . 2. A federal Central Contractor Registration (CCR) account. If your company is not currently registered with CCR, please register at www.ccr.gov before continuing with your FedConnect registration. 3. Possibly, your company's CCR MPIN. If you are the first person from your company to register, FedConnect will need to create a company account. Only a person who knows your company's CCR MPIN can do this. To find out who this is in your company, go to <http://www.ccr.gov/> and click Search CCR. Once you've found your company, locate the Electronic Business Point of Contact. After the initial FedConnect account is created, employees can register themselves without the MPIN. If you are not sure whether your company has an account with FedConnect, don't worry. Complete the registration form and FedConnect will let you know. Applicants who are not registered with CCR and FedConnect, should allow at least 21 days to complete these requirements. It is suggested that the process be started as soon as possible. For those Applicants already registered in CCR, the CCR registration must be updated annually at <http://www.ccr.gov/Renew.aspx>. Questions regarding the content of the announcement must be submitted through the FedConnect portal. You must register with FedConnect to respond as an interested party to submit questions, and to view responses to questions. It is recommended that you register as soon after release of the FOA as possible to have the benefit of all responses. More information is available at https://www.fedconnect.net/FedConnect/PublicPages/FedConnect_Ready_Set_Go.pdf. DOE will try to respond to a question within 3 business days, unless a similar question and answer have already been posted on the website. Questions pertaining to the submission of applications through FedConnect should be directed by e-mail to support@FedConnect.net or by phone to FedConnect Support at 1-800-899-6665.

OVC FY 09 Services for Victims of Human Trafficking Grant

Document Type:	Grants Notice
Funding Opportunity Number:	OVC-2009-2302
Opportunity Category:	Discretionary
Posted Date:	Jun 15, 2009
Creation Date:	Jun 15, 2009
Original Closing Date for Applications:	Jul 13, 2009 All applicants must register in the Grants Management System at https://grants.ojp.usdoj.gov/ to apply online for the funding opportunity titled "OVC FY09 Services for Victims of Human Trafficking." The deadline to register is 8:00 p.m. Eastern Time on Monday, July 13, 2009. Applicants should begin the registration process a few weeks prior to the GMS registration deadline, especially if this is the first time they have used the system.
Current Closing Date for Applications:	Jul 13, 2009 All applicants must register in the Grants Management System at https://grants.ojp.usdoj.gov/ to apply online for the funding opportunity titled "OVC FY09 Services for Victims of Human Trafficking." The deadline to register is 8:00 p.m. Eastern Time on Monday, July 13, 2009. Applicants should begin the registration process a few weeks prior to the GMS registration deadline, especially if this is the first time they have used the system.
Archive Date:	Aug 12, 2009
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Income Security and Social Services Law, Justice and Legal Services
Category Explanation:	
Expected Number of Awards:	13
Estimated Total Program Funding:	
Award Ceiling:	\$300,000

Award Floor: \$0
CFDA Number(s): 16.320 -- Services for Trafficking Victims
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

State governments
County governments
City or township governments
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Additional Information on Eligibility:

By statute, cooperative agreements under this program may be awarded to states, Indian tribes, units of local government, tribal governments, and nonprofit, nongovernmental organizations. Applications for funding under this solicitation will only be accepted from (1.) applicants seeking continuation funding for existing OVC trafficking victim service initiatives, or (2.) applicants from the specific geographic regions and meeting the criteria (including documentation of support from the Anti-Human Trafficking Task Force from the specified region) identified in the "Eligibility" section of the solicitation.

Description

This program will provide timely, comprehensive services to pre-certified victims of severe forms of human trafficking and enhance interagency collaboration and coordination of the provision of such services. Eligible applicants include those seeking continuation funding for existing OVC trafficking victim service initiatives and those from the specific geographic regions identified in the "Eligibility" section of this solicitation that can demonstrate that they have the support of the Bureau of Justice Assistance-funded Anti-Human Trafficking Task Force and the U.S. Attorney in their region. Grantees under this program are required to coordinate with an existing anti-human trafficking law enforcement task force.

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Description

The National Institute of Justice (NIJ) is the research, development, and evaluation agency of the U.S. Department of Justice (DOJ) and a component of the Office of Justice Programs (OJP). NIJ provides objective, independent, evidence-based knowledge and tools to enhance the administration of justice and public safety. NIJ solicits applications to inform its search for the knowledge and tools to guide policy and practice. NIJ is interested in funding multiple projects in support of criminal justice researcher-practitioner partnerships as well as capturing, in detail, relevant accounts of previous and current criminal justice researcher-practitioner collaborations. NIJ has always acknowledged the importance of researcher-practitioner partnerships and the involvement of the practitioner throughout the research process—from formulating research questions and accessing data to advising a study as it progresses and helping to ensure practical perspectives in the analysis of data and report writing. Such partnerships have frequently been encouraged in solicitations for research. However, there is a need for intentional activities that capture and build on previous work on partnerships and that provide opportunities for creating, enhancing, and improving criminal justice researcher-practitioner partnerships.

Community Capacity Development Office
CCDO FY 10 Weed and Seed Communities Competitive Program Guide
And Modifications 1 and 3

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	CCDO-2010-2094
Opportunity Category:	Discretionary
Posted Date:	May 13, 2009
Creation Date:	May 14, 2009
Original Closing Date for Applications:	Dec 01, 2009
Current Closing Date for Applications:	Dec 01, 2009
Archive Date:	Dec 31, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Law, Justice and Legal Services
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	
Award Ceiling:	\$150,000
Award Floor:	\$0
CFDA Number(s):	16.595 -- Community Capacity Development Office
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Additional Information on Eligibility:

Eligible entities include state, local or tribal governments or nonprofit organizations in communities with a persistent high level of serious violent crime (Part I) pursuant to this guide, which have not previously been an approved Weed and Seed site.

Agency Name

Community Capacity Development Office

Description

The Weed and Seed strategy aims to prevent, control, and reduce violent crime, criminal drug-related activity, and gang activity. The Weed and Seed strategy is a community-based, comprehensive multi-agency approach. Four elements make up the two-pronged Weed and Seed Strategy: Law Enforcement; Community Policing; Prevention, Intervention, and Treatment; and Neighborhood Restoration. Limited discretionary grant resources are available annually for communities selected as Weed and Seed Communities subject to Congressional funding and level of grantee performance. A Weed and Seed Community (WSC) must be developed in partnership with a variety of key local organizations and the local United States Attorney's Office (USAO). WSCs must work to reduce crime and improve the quality of life for residents in a community primarily through the redeployment of existing public and private resources, addressing both crime and social related problems that without proper intervention often lead to violent crime, drug abuse, and gang activity. WSC applicants responding to this solicitation must provide all the information requested in the formats indicated or provided, and meet all requirements as set forth herein to be competitively considered. The legislation, which governs the program and the overseeing administrative office, the Office of Weed and Seed Strategies in conjunction with the Community Capacity Development Office, is Sec. 1121 of Pub. L. 109-162, Violence Against Women and Department of Justice Reauthorization Act of 2005. You may access the legislation (HR 3402) on the Library of Congress' THOMAS reference site at: <http://thomas.loc.gov/>.

Cost Sharing or Matching Requirement: No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Under this announcement, eligible applicants are private nonprofit organizations that must apply under one of two categories: 1) National labor-management organizations with local networks; or 2) Statewide or local nonprofit partnerships.

Description

Under the American Recovery and Reinvestment Act of 2009 (the Recovery Act), DOL announces the availability of approximately \$100 million in grant funds to 20-30 projects ranging from approximately \$2 to \$5 million each. Projects will provide training and placement services in the energy efficiency and renewable energy industries for workers impacted by national energy and environmental policy, individuals in need of updated training related to the energy efficiency and renewable energy industries, and unemployed workers. Proposed projects must be developed and implemented through strategic partnerships. Energy Training Partnership funds are intended to provide training for workers that prepares them to enter the energy efficiency and renewable energy industries, as well as green occupations within other industries, as described in the Supplementary Information: Part B of this SGA. Individuals eligible for training include workers impacted by national energy and environmental policy, individuals in need of updated training related to the energy efficiency and renewable energy industries, and unemployed workers. A portion of the funds under this SGA will be reserved (as described in Section II, Award Information) for projects serving communities impacted by automotive-related restructuring.

Category of Funding Activity:	Employment, Labor and Training Recovery Act
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$150,000,000
Award Ceiling:	\$8,000,000
Award Floor:	\$2,000,000
CFDA Number(s):	17.275 -- Competitive Grants for Worker Training and Placement in High Growth and Emerging Industry Sectors
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

To be eligible to apply for these grants, applicants must fall into one of two categories: (1) national entities; or (2) local entities. 1. National Entities :For the purposes of this SGA, applicants qualify as national entities if they are private nonprofit organizations that have the following characteristics: (a) they deliver services through networks of local affiliates, coalition members, or other established partners (such as a network of affiliated community or faith-based organizations); and (b) their local affiliates, coalition members, or other established partners have the ability to provide services in 4 or more States. These entities, along with their partners, are expected to implement projects in multiple communities across the country. In order to apply as a national entity, an applicant must propose a project that serves communities (see Section III.C.2 for the definition of community) located in at least 2 States, with a minimum of 1 community located in each State, and a range of 3-7 total communities served. (For the purposes of this SGA, the term "State" means each of the 50 States of the United States, the District of Columbia, and U.S. territories as defined in Section VI.B.2.iv). By serving a range of 3-7 total communities, national applicants can ensure that each community has adequate funding to implement training and job placement programs. National entities will be required to fund sub-grants or sub-contracts in each designated community, through which the local affiliates, coalition members, or other established partners will implement each project in collaboration with the required partners detailed in Section III.A.3.i. 2. Local Entities: For the purposes of this SGA, applicants qualify as local entities if they are public organizations (such as community colleges or workforce investment boards) or private nonprofit organizations (such as community or faith-based organizations) whose service area is limited to a single sub-State geographic area, such as a neighborhood, city, county, sub-State region, or interstate region comprised of multiple sub-State regions (such as Kansas City). In order to apply as a local entity, an applicant must propose a project that serves one single community (see Section III.C.2 for the definition of community). Local entities must implement the project in collaboration with the required partners detailed in

Section III.A.3.i. A local entity that receives an award under this SGA may not receive sub-grant or sub-contract funding through a grant awarded to a national entity under this SGA.

Description

The Department of Labor (DOL, or the Department) announces the availability of approximately \$150 million in grant funds authorized by the American Recovery and Reinvestment Act of 2009 (the Recovery Act) for projects that provide training and placement services to provide pathways out of poverty and into employment within the industries described in the Supplementary Information, Part B of this SGA. Grantees selected from two separate types of applicants will be funded through this solicitation: (1) national nonprofit entities with networks of local affiliates, coalition members, or other established partners; and (2) local entities. Additional specific eligibility guidance is included in Section III.A, "Eligible Applicants and Required Partnerships." ETA intends to fund grants ranging from approximately \$3 to \$8 million for national grantees, and grants ranging from approximately \$2 to \$4 million for local grantees.

Posted Date:	Jun 24, 2009
Creation Date:	Jun 23, 2009
Original Closing Date for Applications:	Oct 20, 2009
Current Closing Date for Applications:	Oct 20, 2009
Archive Date:	Nov 19, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Employment, Labor and Training Recovery Act
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$190,000,000
Award Ceiling:	\$6,000,000
Award Floor:	\$2,000,000
CFDA Number(s):	17.275 -- Competitive Grants for Worker Training and Placement in High Growth and Emerging Industry Sectors
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

The eligible applicants for this SGA are State Workforce Investment Boards in partnership with their State Workforce Agency, local Workforce Investment Boards or regional consortia of Boards, and One Stop Career Center delivery systems.

Description

The Department of Labor (DOL) announces the availability of approximately \$190 million in grant funds to State Workforce Investment Boards of the 50 States, the District of Columbia, and the U.S. territories. In order to highlight the important role States play in building a national green economy, the Department is investing in workforce sector strategies that target energy efficiency and renewable energy industries. DOL encourages a strategic planning process that aligns the Governor's overall workforce vision, State energy policies, and local and regional training activities that lead to employment in targeted industry sectors. This strategic planning process is an opportunity to develop a statewide energy sector strategy through a comprehensive partnership and development of a Sector Plan. If an energy sector strategy is currently in place, that strategy should be reviewed and evaluated to address the requirements of this funding opportunity. As a result of this Solicitation for Grant Application (SGA), the Department is fostering the development of a national workforce that is ready to meet the demands of the energy efficiency and renewable energy industries. A portion of the funds under this SGA will be reserved for communities or regions undergoing auto industry related restructurings. The eligible applicants for this SGA are State Workforce Investment Boards in partnership with their State Workforce Agency, local Workforce Investment Boards or regional consortia of Boards, and One Stop Career Center delivery systems. ETA intends to fund grants ranging from approximately \$2 to \$6 million.

Nonprofit organizations, including qualifying labor unions and community-based and faith-based organizations that are not an agency of a State or local government are eligible to apply. Additionally, State or local government supported institutions of higher education are eligible to apply in accordance with 29 CFR part 95. Eligible organizations can apply independently for funding or in partnership with other eligible organizations, but in such a case, the lead organization must be identified. Sub-grants are not authorized. Subcontracts, if any, must be awarded in accordance with 29 CFR 95.40–48, including OMB circulars requiring full and open competition for procurement transactions, to the maximum extent practicable. A 501(c)(4) nonprofit organization, as described in 26 U.S.C. 501(c)(4), that engages in lobbying activities will not be eligible for the receipt of Federal funds constituting an award, grant or loan. See 1 U.S.C. 1611. Applicants other than State or local government supported institutions of higher education will be required to submit evidence of nonprofit status from the Internal Revenue Service (IRS).

Description

The Susan Harwood Training Grant Program provides funds for programs to train workers and employers to recognize, avoid, and prevent safety and health hazards in their workplaces. The program emphasizes four areas 1) Educating workers and employers in

small businesses. For purposes of this grant program, a small business is one with 250 or fewer employees; 2) Training workers and employers about new OSHA standards; 3) Training at-risk worker and employer populations; and 4) Training workers and employers about high risk activities or hazards identified by OSHA through the Department of Labor's Strategic Plan, or as part of an OSHA special emphasis program.

Eligibility requirements will be provided in the upcoming solicitation for grant applications.

Description

The American Recovery and Reinvestment Act provides \$750 million for a program of competitive grants for worker training and placement in high growth and emerging industry sectors. Of that amount, \$500 million is targeted for research, labor exchange, and job training projects that prepare workers for careers in energy efficiency and renewable energy as defined in the Green Jobs Act: energy efficient building, construction, and retrofitting; renewable electric power; energy efficient and advanced drive train vehicles; biofuels; deconstruction and materials use; energy efficiency assessment for residential, commercial, or industrial sector, and manufacturing of sustainable products using sustainable processes. The remaining \$250 million will be for projects in other high growth and emerging industry sectors with a priority for projects that prepare workers for careers in the health care sector and projects that are tied to industry sectors where jobs are being created as a result of Recovery Act investments such as infrastructure investments. In order to maximize the impact of these competitive grants and leverage the other investments in the Recovery Act, the Department of Labor (DOL) is collaborating with other Federal agencies and developing a multi-pronged investment approach with these funds. DOL plans to issue Solicitations for Grant Awards (SGA) no later than June 30, 2009. The SGA will provide specific requirements for use of the funds, certification, data reporting, performance measures, and other necessary information. DOL will be publishing the grant opportunities on Grants.gov. Information on grant opportunities will also be available on DOL's Recovery Web site: <http://www.dol.gov/recovery/>. This synopsis is for information purposes only. Specific funding opportunities related to this notice will be forthcoming and will be posted on www.grants.gov under a unique funding opportunity number and Recovery Act description.

Records Grants
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

State governments
County governments
City or township governments
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher
education
Private institutions of higher education

Description

The National Historical Publications and Records Commission seeks proposals to improve the training and education of professionals in the archival and historical publishing communities. Projects can be for professional education curriculum development; for basic and advanced institutes; or research seminars. Surveys, focus groups, and other activities to understand these professions and their educational and training needs are also eligible. This program does not support requests from individuals for their own training, education, or professional advancement. Award Information: A grant normally is for one to three years and up to \$150,000. The Commission expects to make up to 4 grants in this category, for a total of up to \$300,000 during the two competitions. Cost Sharing: Cost sharing is required. It is the financial contribution the applicant pledges to the cost of a project. Cost sharing can include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. The NHPRC ordinarily provides no more than 50 percent of the total project costs for Professional Development projects. Before beginning the process, applicants should review full grant announcement (linked below) and the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section. Note: Optional draft applications should be emailed to Lucy Barber at lucy.barber@nara.gov. Grants.gov should only be used to submit the final application.

City or township governments
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education

Additional Information on Eligibility:

Archives and other repositories of historical documents are eligible if they are part of:
*Nonprofit organizations or institutions; *Colleges, universities, and other academic institutions; *State or local government agencies; *Federally-acknowledged or state-recognized Native American tribes or groups. Ineligible applications will not be reviewed.

Description

The National Historical Publications and Records Commission seeks proposals from active NHPRC-supported publications projects to serve as a host institution for a Historical Documentary Editing Fellowship. Applicants should demonstrate the capability to provide strong post-graduate training in documentary editing, including document collection, accessioning, and control; selection; transcription; annotation; proofreading; indexing; and project management. Staff at the host institution will solicit

applicants, select the best candidate, and arrange for their hiring by their institution. The Commission provides this funding to ensure that recent History Ph.D.s or advanced graduate students have exposure to historical editing techniques and careers. The host institution may use a limited amount of funds to cover costs of recruiting a fellow and giving the fellow travel and educational opportunities.

State and National Archival Partnership (SNAP) Grants

Document Type:	Grants Notice
Funding Opportunity Number:	SNAP-201003
Opportunity Category:	Discretionary
Posted Date:	Jun 05, 2009
Creation Date:	Jun 05, 2009
Original Closing Date for Applications:	Mar 04, 2010
Current Closing Date for Applications:	Mar 04, 2010
Archive Date:	Apr 03, 2010
Funding Instrument Type:	Grant
Category of Funding Activity:	Humanities (see "Cultural Affairs" in CFDA)
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	
Award Ceiling:	\$70,000
Award Floor:	\$0
CFDA Number(s):	89.003 -- National Historical Publications and Records Grants
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

State governments
Public and State controlled institutions of higher education
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Additional Information on Eligibility:

Grants in this category are awarded only to State Historical Records Advisory Boards (SHRAB) in each state, or to the state agency responsible for the SHRAB, ordinarily the state archives. Another state agency, or a non-profit organization, such as a foundation or university, acting on behalf of the designated state agency may apply. States also include

the District of Columbia, the Commonwealth of Puerto Rico, and United States territories. Ineligible applications will not be reviewed.

Description

The National Historical Publications and Records Commission seeks proposals to strengthen archives and historical records programs in each of the states and build a national archival network. The Commission awards grants to State Historical Records Advisory Boards to: *Provide statewide archival services, including professional education, public information about records and archival programs, and other activities to implement state plans. *Operate grant programs for eligible archives, manuscript repositories, and other organizations within a state. *Collaborate on projects with other organizations to address common problems or shared opportunities within a state or among a consortium of state archives. *Assess the health of archival and records programs, the conditions of records, and the challenges and opportunities facing historical records keepers and users; and to implement strategies and programs to address pressing archival issues. *Hold meetings and public forums on statewide or national archival issues. *Participate in national archival organizations. The NHPRC expects to award up to 56 grants in this program. Applicants may apply for outright basic grants of up to \$20,000 for 18 month projects. Projects to reactivate a State Historical Records Advisory Board (SHRAB) and develop or revise the SHRAB's strategic plan should request a maximum of \$5,000. Active State Historical Records Advisory Boards may apply for a grant of up to \$20,000 to carry out project activities aligned with their board's current strategic plan. In addition, active SHRABs may request in their applications up to \$50,000 in additional funds for regrants or collaborative projects. These supplemental funds will be awarded competitively, provided monies are available.

Current Closing Date for Applications:	Oct 06, 2009
Archive Date:	Nov 05, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Humanities (see "Cultural Affairs" in CFDA)
Category Explanation:	
Expected Number of Awards:	7
Estimated Total Program Funding:	\$700,000

Award Ceiling:	\$200,000
Award Floor:	\$40,000
CFDA Number(s):	89.003 -- National Historical Publications and Records Grants
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

State governments
County governments
City or township governments
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education

Additional Information on Eligibility:

Archives and other repositories of historical documents are eligible if they are part of:
*Nonprofit organizations or institutions; *Colleges and Universities and other academic institutions; *State or local government agencies; *Federally-acknowledged or state-recognized; *Native American tribes or groups. Ineligible applications will not be reviewed.

Description

The National Historical Publications and Records Commission seeks proposals for detailed processing and preservation of collections of national significance. The collections also should have high research demand or substantial preservation challenges. Applicants must have virtually all of their collections processed sufficiently so that researchers can find them, and they must have procedures in place to prevent the creation of new backlogs. If archives have not achieved these goals, they should review the Archives - Basic Projects grant announcement. In general, proposals should describe how the repository will process and create detailed descriptions at the series or file level. In the course of such processing, some selective refolding and basic cleaning may be needed, and applicants must explain whether any item level treatment will be necessary, including removing fasteners, opening envelopes, and flattening, copying, encapsulating, de-acidifying, and mending documents. Projects should revise corresponding collection-level records and submit them to national library catalogs. In general, they should also create or revise detailed finding aids using Encoded Archival Description (EAD) and provide them to a national archival database and appropriate regional and institutional databases. If other search mechanisms, descriptive methods, or name indexes are necessary for parts of collections, applicants should explain the reasons for creating these tools. For collections of fragile textual materials, applicants may apply for grants in support of preservation microfilming or other media. If parts of collections deserve item-level processing, proposals must justify this detailed work and provide estimates of the percentage of collections to be processed to the item level. When appropriate, applicants

should consider hybrid microfilm/digitization (using dual head cameras, or microfilm-to-digital or digital-to-microfilm techniques). Applicants may propose limited digitization of series or items that have the most potential to benefit a broad public, or that provide illustrations of the type of records and documents found in the series and collection. Applications should detail the standards to be used in this process, itemize anticipated expenses, and estimate the percentage of the collections to be digitized. Applicants who wish only to engage in digitization should see the Digitizing Historical Records announcement. For collections of unstable audio, film, or video materials, applicants may propose preservation reformatting or migration. Applicants should also outline their publicity and outreach plans for promoting use of collections.

- Native American tribal governments (Federally recognized)
- Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Private institutions of higher education

Additional Information on Eligibility:

Archives and other repositories of historical documents are eligible if they are part of:
*Nonprofit organizations or institutions; *Colleges, universities, and other academic institutions; *State or local government agencies; *Federally-acknowledged or state-recognized Native American tribes or groups. Ineligible applications will not be reviewed.

Description

The National Historical Publications and Records Commission (NHPRC), a part of the National Archives and Records Administration (NARA), supports projects that promote the preservation and use of America's documentary heritage essential to understanding our democracy, history, and culture. The National Historical Publications and Records Commission seeks proposals for fundamental archival activities that promote the preservation and use of America's documentary heritage. Proposals must demonstrate how the applicant employs the best and most cost-effective archival methods. Activities included under Basic Projects may be any one or combination of the following: *Basic Processing; *Preservation Planning; *Collections Development; and *Establishing Archives. Although projects focused exclusively on professional development are not eligible in this grant category, we strongly encourage each application to include professional development components necessary for the success of the project.

Additional Information on Eligibility:

See below Description and the Cooperative Agreement Notice NNL09ZB1005C for a listing of eligible applicants.

Agency Name

NASA Langley Research Center

Description

The National Aeronautics and Space Administration (NASA) Langley Research Center Science Directorate is releasing a Cooperative Agreement Notice (CAN) soliciting proposals for "Global Climate Change Education (GCCE): Research Experience,

Teaching and Learning”. The objective of the effort is to extend the results of NASA’s Earth Science Program to the education community by sponsoring unique and stimulating opportunities for global climate and Earth system science education. GCCE is designed to improve the quality of the Nation’s STEM (Science, Technology, Engineering and Mathematics) education and enhance the students’ and teachers’ literacy about global climate and Earth system change at the elementary, secondary, and undergraduate levels. Each funded proposal is expected to make use of NASA’s unique contributions in climate science to enhance students’ academic experiences and/or to improve educators’ abilities to engage their students. The GCCE project will consider proposals in the following three funding categories: (1) Funding Category R: Global Climate Change Science Research Experiences for Undergraduate or Community College Students and Pre- or In-Service Teachers including those in nontraditional teacher licensure programs; (2) Funding Category D: Using NASA Earth system data and models to Strengthen Teaching and Learning about Global Climate Change in Formal Education; (3) Funding Category P: Improve Teacher Competency for Global Climate Change Education. The anticipated total amount of funding available for new awards under this solicitation is approximately \$8 million. Projects may be proposed for durations of up to 3 years. It is anticipated that approximately 25 awards will be issued. Participation is open to the following categories of U.S organizations: higher educational institutions, state, local or federally-recognized tribal government agencies, public school districts, nonprofit institutions (with proof of nonprofit 501(c)(3) status), Historically Black Colleges and Universities (HBCUs), Hispanic Serving Institutions (HSI), and Tribal Colleges and Universities (TCU), as well as other minority-serving educational institutions. Notices of intent (NOIs) are strongly encouraged and are to be submitted electronically through NSPIRES at <http://nspires.nasaprs.com> . The CAN will be available electronically the first week in June 2009 through the NSPIRES website at <http://nspires.nasaprs.com>. Potential offerors are responsible for downloading the CAN and amendments (if any). This solicitation leading to the award of a Cooperative Agreement is issued pursuant to title 14 CFR Part 1260 for educational and nonprofit institutions. Additional questions regarding the solicitation and programmatic information can be obtained from: Dr Lin Chambers, Global Climate Change Education Program Manager, NASA Langley Research Center, gcce-questions@lists.nasa.gov.

Additional Information on Eligibility:

Agency Name

NASA Goddard Space Flight Center

Description

The National Aeronautics and Space Administration (NASA)Goddard Space Flight Center's Learning Technologies Project Office (LTPO) is releasing a Cooperative Agreement Notice (CAN) to conduct research and evaluation on the design and usage of Massively Multiplayer Online Games (MMOG) and Persistent Immersive Synthetic Environments (Virtual Worlds) for NASA Science, Technology, Engineering and Mathematics (STEM) Education and Training. The LTPO MMOG Research and Evaluation CAN will consider proposals that communicate the required approach and skills to: •Contribute to NASA, other Federal Agencies, private industry and academia's research initiatives to improve STEM content and delivery approaches that promote the development of our Nation's future workforce, workforce applications and missions. •Provide experiences and activities that are grounded in education research or utilize evidence-supported approaches, techniques, and tools; and •Stimulate linkages and connections to and from secondary education and higher education and informal education communities using NASA content within a gaming context. It is anticipated that one award of up to \$350,000 annually will be made to partner with LTPO and the MMOG developer to infuse educational content and design into the NASA MMOG for up to three years. One award of up to \$100K annually is planned to award an independent

evaluation effort for up to three years and one award of up to \$100K annually is planned to conduct broad-based research of the applicability of educational gaming to diverse institutions and people. NASA expects to award the Cooperative Agreements under this CAN pursuant to the authority of 1260.12(d) of the NASA Grant and Cooperative Agreement Handbook. Upon its release date, this CAN will be available electronically through the NASA Solicitation and Proposal Integrated Review and Evaluation System (NSPIRE) and through Grants.gov. It is anticipated that the CAN will be available the second week of June 2009. Proposals should be submitted electronically via NASA's proposal data system, NASA Solicitation and Proposal Integrated Review and Evaluation System (NSPIRES) (<http://nspires.nasaprs.com>) or through Grants.gov. Organizations interested in collaborating with NASA to conduct this exciting research are invited to submit proposals. Only one funding category can be awarded for any organization. Under this CAN we are soliciting proposals from domestic higher education institutions, nonprofit organizations, or consortia of organizations and institutions serving students. Partnerships with these institutions and/or organizations which insure the participation of underserved, underrepresented minority populations in STEM and minority higher education institutions are required. Electronically submitted Notices of Intent to propose are requested. Proposal due date is August 10, 2009 at noon Eastern Standard Time (EST). The electronic submission of each proposal's Cover Page, Proposal Summary, and Budget Summary is required by the due date for proposal submission. This solicitation leading to the award of a Cooperative Agreement is issued pursuant to title 14 CFR Part 1260 for educational and nonprofit institutions. Notwithstanding the posting of this opportunity at FedBizOpps.gov, Grants.gov, or at both sites, NASA reserves the right to determine the appropriate award instrument for each proposal selected pursuant to this announcement. Direct questions specifically regarding this solicitation to: James L. Harrington, Jr. Learning Technologies Mail Stop 606.3 Goddard Space Flight Center Greenbelt, MD 20771 Email: James.L.Harrington@nasa.gov 301-286-4063

National Endowment for the Arts

NEA Arts on Radio and Television, FY 2010 Grant

Document Type:	Grants Notice
Funding Opportunity Number:	2009NEA01ARTV
Opportunity Category:	Discretionary
Posted Date:	May 11, 2009
Creation Date:	May 11, 2009

Original Closing Date for Applications: Sep 03, 2009 Applicants are required to submit their applications electronically through Grants.gov, the federal government's online application system. The Grants.gov system must receive your application no later than 11:59 p.m., Eastern Time, on September 3, 2009. We strongly recommend that you submit at least 10 days in advance of the deadline to give yourself ample time to resolve any problems that you might encounter. The Arts Endowment will not accept late applications. Please be aware that the Grants.gov Customer Service hours are 7:00 a.m. to 9:00 p.m., Eastern Time, Monday to Friday.

Current Closing Date for Applications: Sep 03, 2009 Applicants are required to submit their applications electronically through Grants.gov, the federal government's online application system. The Grants.gov system must receive your application no later than 11:59 p.m., Eastern Time, on September 3, 2009. We strongly recommend that you submit at least 10 days in advance of the deadline to give yourself ample time to resolve any problems that you might encounter. The Arts Endowment will not accept late applications. Please be aware that the Grants.gov Customer Service hours are 7:00 a.m. to 9:00 p.m., Eastern Time, Monday to Friday.

Archive Date: Oct 03, 2009
Funding Instrument Type: Grant
Category of Funding Activity: Arts (see "Cultural Affairs" in CFDA)
Category Explanation:
Expected Number of Awards:
Estimated Total Program Funding:
Award Ceiling: \$200,000
Award Floor: \$10,000
CFDA Number(s): 45.024 -- Promotion of the Arts Grants to Organizations and Individuals
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

State governments
County governments
City or township governments
Special district governments
Independent school districts
Public and State controlled institutions of higher education

Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education

Additional Information on Eligibility:

Nonprofit, tax-exempt 501(c)(3), U.S. organizations; units of state or local government; or federally recognized tribal communities or tribes may apply. To be eligible, the applicant organization must: Meet the Arts Endowment's "Legal Requirements," including nonprofit, tax-exempt status, at the time of application. All organizations must apply directly on their own behalf. Applications through a fiscal agent are not allowed. Have submitted acceptable Final Report packages by the due date(s) for all Arts Endowment awards(s) previously received. See "How to Prepare and Submit an Application" for the documentation that is required to demonstrate eligibility. Ineligible applications will be returned. An organization may submit more than one application under these Arts on Radio and Television guidelines. Organizations that are considering more than one Arts on Radio and Television project should consult the Media Arts staff (welshl@arts.gov or 202/682-5738) before applying. An application under the Arts on Radio and Television guidelines does not preclude an organization from applying under other Arts Endowment funding opportunities including Grants for Arts Projects. Each application to the Arts Endowment must be for a distinctly different project.

Description

Through this category the National Endowment for the Arts seeks to make the excellence and diversity of the arts widely available to the American public through nationally distributed television and radio programs. The Arts Endowment's support of a project may start on or after May 1, 2010. Grants are available to support the development, production, and national distribution of radio and television programs on the arts. Priority will be given to artistically excellent programs that have the potential to reach a significant national audience, regardless of the size or geographic location of the applicant organization. Only programs of artistic excellence and merit, in both the media production and the subject, will be funded. Projects may include high profile multi-part television and radio series, single documentaries, performance programs, or arts segments for use within an existing series. Programs may deal with any art form (e.g., visual arts, music, dance, literature, design, theater, musical theater, opera, film/video/audio art, folk & traditional arts). Programs targeted to children and youth are welcome. All phases of a project -- research and development, production, completion and distribution costs -- are eligible for support. We welcome proposals that include ancillary activities that are intended to increase public knowledge, understanding, and access to the arts. Such activities might include the use of related radio and television programming; interactive Web sites; DVDs; streaming, video-on-demand, and podcasts; other digital applications; educational material; collaborations with arts organizations, educators, and community groups; video/audio distribution to schools, libraries, and homes; and other public outreach activities. We Do Not Fund Under these guidelines, funding is not available for: Direct grants to individuals. Programs that are intended primarily for local distribution. Films/tapes that are produced primarily for non-broadcast distribution (e.g., an instructional video, a film to accompany an exhibition, a theatrical exhibition).

Documentation or simple recording of performances or events primarily for archival purposes. Expenditures that are related to compensation to foreign nationals and artists traveling to or from foreign countries when those expenditures are not in compliance with regulations issued by the U.S. Treasury Department Office of Foreign Asset Control. For further information, see <http://www.treas.gov/offices/eotffc/ofac/index.html> or contact the Arts Endowment's Grants & Contracts Office at grants@arts.gov. Organizations seeking funding for media projects that are not eligible under these guidelines may want to review the Arts Endowment's Grants for Arts Projects guidelines.

National Endowment for the Humanities

New Guidelines Available for Media Makers Grants

The [National Endowment for the Humanities'](#) Grants for America's Media Makers program support projects in the humanities that "explore stories, ideas, and beliefs that deepen our understanding of our lives and our world."

The program invites proposals for radio, television, and digital media projects that combine radio or television programs with complementary projects using emerging technologies, museum exhibitions, reading and discussion programs, and other formats that expand and enhance programs' humanities content. NEH offers grants for media projects in the development and production stages.

Development grants enable media producers to collaborate with scholars to develop humanities content and format and to prepare programs for production. Awards for development typically range from \$40,000 to \$75,000 each, and are usually made for a period of six to twelve months.

Production grants support the preparation of a program for distribution. Applicants must submit a script for a radio or television program or a prototype or storyboard for a digital media project that demonstrates a solid command of the humanities ideas and scholarship related to a subject. Awards for production last for one to three years and may range from \$100,000 to \$800,000 each. Chairman's Special Awards of up to \$1 million are available for large-scale, collaborative, multi-format projects that will reach broad portions of the public.

Applications may be submitted for any phase of a project; applicants are not required to obtain a development grant before applying for a production grant.

Any U.S. nonprofit organization with tax-exempt 501(c) (3) status is eligible, as are state and local governmental agencies. Individuals are not eligible. Independent producers who wish to

apply for NEH funding are advised to seek an eligible organization to sponsor the project and submit the application to NEH.

Visit the NEH Web site for complete program guidelines and examples of potential projects.

Contact:

[Link to Complete RFP](#)

Picturing America School Collaboration Projects Grant Opportunity

Building on the national distribution of its [Picturing America](#) program, the [National Endowment for the Humanities](#) invites proposals for local and regional projects that foster collaboration between K-12 educators and humanities scholars for the purposes of encouraging “engagement with the rich resources of American art to tell America's story.”

The Picturing America School Collaboration Projects grant opportunity is designed to help teachers and librarians form connections between the Picturing America images and coursework in the school’s core curriculum. Picturing America is part of the endowment's [We the People](#) program.

Funded projects should support one or more conferences of one or two days each, accommodate at least twenty-four participants at each conference, and provide opportunities for participants to engage with scholars, museum and library professionals, and other experts. Conference attendees may include public school teachers, teachers at charter schools, members of home school consortia, and faculty from independent and religious schools.

Grants of up to \$75,000 will be awarded for projects involving one or more conferences. The grant period will be twelve months.

Any U.S. nonprofit organization with 501(c) (3) tax-exempt status is eligible to apply for a grant, as are state and local governmental agencies and tribal governments. Grants will not be awarded to individuals.

Visit the NEH Web site for complete program information.

Fellowship Programs at Independent Research Institutions Grant

Document Type:	Grants Notice
Funding Opportunity Number:	20090820-RA
Opportunity Category:	Discretionary
Posted Date:	May 05, 2009
Creation Date:	May 05, 2009
Original Closing Date for Applications:	Aug 20, 2009
Current Closing Date for Applications:	Aug 20, 2009
Archive Date:	Sep 19, 2009

Funding Instrument Type:	Grant
Category of Funding Activity:	Humanities (see "Cultural Affairs" in CFDA)
Category Explanation:	
Expected Number of Awards:	10
Estimated Total Program Funding:	
Award Ceiling:	\$700,000
Award Floor:	\$0
CFDA Number(s):	45.161 -- Promotion of the Humanities Research
Cost Sharing or Matching Requirement:	No

Eligible Applicants

State governments
City or township governments
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education

Description

Grants for Fellowship Programs at Independent Research Institutions (FPIRI) support fellowships at institutions devoted to advanced study and research in the humanities. NEH fellowships provide scholars with research time and access to resources that might not be available at their home institutions. Fellowship programs may be administered by independent centers for advanced study, libraries, and museums in the United States; American overseas research centers; and organizations that have expertise in promoting research on foreign cultures. Individual scholars must apply directly to the institutions themselves. A list of currently funded institutions is available. In evaluating applications from programs at institutions located in the United States, priority is given to those with library holdings, archives, or other special collections—either on site or nearby—that are available as resources for NEH fellows. American overseas research centers should demonstrate a particular benefit to NEH fellows by virtue of their location and other resources. FPIRI grants provide funding to programs for humanities fellowships of four to twelve months. Fellowship tenure must be continuous. FPIRI grants support fellowship stipends and standard allowances, as well as a portion of the costs for both publicizing the availability of the fellowships and selecting the fellows. The stipends and allowances for NEH fellows are determined in accordance with an institution's usual practices. However, the maximum amount of NEH funding is \$50,400 for a six- to twelve-month fellowship and \$25,200 for a four- to five-month fellowship. A grantee institution may supplement the stipends of NEH fellows from its own funds, and fellows may receive additional funds from other sources. NEH fellows must be granted the same benefits, services, and accommodations normally accorded other fellows.

Independent school districts
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education

Description

Building on the national distribution of Picturing America, the National Endowment for the Humanities invites proposals for local and regional projects that foster collaboration between K-12 educators and humanities scholars to encourage engagement with the rich resources of American art to tell America's story. The Picturing America School

Collaboration Projects grant opportunity is designed to help teachers and librarians whose schools display the Picturing America images form connections with courses in the core curriculum. These projects will be grounded in the great works of art included in Picturing America, which is part of the Endowment's We the People program. Information about Picturing America, including the Picturing America Teachers Resource Book, can be found by visiting the Picturing America Web site. The images in Picturing America reflect a variety of media spanning several centuries, ranging from the work of early American Indian artists to painters such as Mary Cassatt and Jacob Lawrence, from photographers such as Dorothea Lange to architects such as Frank Lloyd Wright. These images will help students better understand America's diverse people and places and connect them to our nation's travails and triumphs. This history is reflected in the themes of Picturing America: Leadership, Freedom and Equality, Democracy, Courage, Landscape, and Creativity and Ingenuity. Goals of the Picturing America School Collaboration Projects grants are: to strengthen understanding of the connections between great works of American art and significant events, themes, and topics in the American experience; to encourage local and regional collaboration between K-12 educators and humanities experts who can bring appropriate knowledge to the integration of American artworks in core subjects; to foster discussion of how to use the Picturing America images among K-12 educators within a locality or region; and to provide access to rich scholarly resources and primary materials that support teaching. In order to provide a forum for exploring and deepening students' understanding of art, American history, government, social studies, literature, language arts, civics, and other core subjects, funded projects should support one or more conferences of one or two days each; accommodate at each conference twenty-four to one hundred (or more) participants, all of whom would have access to the Picturing America portfolio; and provide opportunities for participants to engage with scholars, museum and library professionals, and other experts. Successful proposals for local and regional projects will present a conference schedule of plenary and concurrent sessions in engaging formats that provide opportunities for participants to observe or demonstrate models for teaching American art, history, and culture with the Picturing America portfolio and accompanying Teachers Resource Book; and explore the curricular value of Picturing America for core subjects (for example, using images in the teaching of history or literature as a powerful investigative tool, a stimulus to Socratic inquiry, or a catalyst to improve student writing).

Eligible Applicants

Public and State controlled institutions of higher education
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education

Description

NEH Fellowships at Digital Humanities Centers (FDHC) support collaboration between digital centers and individual scholars. An award provides funding for both a stipend for the fellow and a portion of the center's costs for hosting a fellow. Awards are for periods of six to twelve months of continuous full-time research. The intellectual cooperation between the fellow and the center may take many different forms and may involve humanities scholars of any level of digital expertise. Fellows may work exclusively on their own projects in consultation with center staff, collaborate on projects with other scholars affiliated with the center, function as "apprentices" on existing digital center projects, or any combination of these. Awards support projects at any stage of development. FDHC grants are made to digital humanities centers and, therefore, a staff member of the digital humanities center must serve as the project director. Prospective fellows must apply through a digital center. Centers may submit one application per deadline; individual scholars may apply in collaboration with only one digital center per deadline. Scholars are eligible, regardless of their institutional affiliation. Current staff members of the applicant center may not, however, be proposed as fellows. Providing Access to Grant Products As a taxpayer-supported federal agency, NEH endeavors to make the products of its grants available to the broadest possible audience. Our goal is for scholars, educators, students, and the American public to have ready and easy access to the wide range of NEH grant products. All other considerations being equal, NEH gives preference to projects that provide free access to the public.

Interpreting America's Historic Places: Implementation Grants

Document Type:	Grants Notice
----------------	---------------

Funding Opportunity Number:	20090826-BR
Opportunity Category:	Discretionary
Posted Date:	Jun 22, 2009
Creation Date:	Jun 22, 2009
Original Closing Date for Applications:	Aug 26, 2009
Current Closing Date for Applications:	Aug 26, 2009
Archive Date:	Sep 25, 2009
Funding Instrument Type:	Grant
Category of Funding Activity:	Humanities (see "Cultural Affairs" in CFDA)
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	
Award Ceiling:	\$1,000,000
Award Floor:	\$0
CFDA Number(s):	45.164 -- Promotion of the Humanities Public Programs
Cost Sharing or Matching Requirement:	No

Eligible Applicants

State governments
 County governments
 City or township governments
 Special district governments
 Public and State controlled institutions of higher education
 Native American tribal governments (Federally recognized)
 Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
 Private institutions of higher education

Description

Interpreting America's Historic Places grants support public humanities projects that exploit the evocative power of historic places to explore stories, ideas, and beliefs that deepen our understanding of our lives and our world. The Division of Public Programs supports the development of humanities content and interactivity that excite, inform, and stir thoughtful reflection upon culture, identity, and history in creative and new ways. Interpreting America's Historic Places projects may interpret a single historic site or house, a series of sites, an entire neighborhood, a town or community, or a larger geographical region. Grants for Interpreting America's Historic Places should encourage dialogue, discussion, and civic engagement, and they should foster learning among people of all ages. To that end, the Division of Public Programs urges applicants to consider more than one format for presenting humanities ideas to the public. NEH offers two categories of grants for Interpreting America's Historic Places: Planning and Implementation Grants. Implementation grants support the final preparation of a project

for presentation to the public. Applicants must submit a full walkthrough for an exhibition, or a prototype or storyboard for a digital project that demonstrates a solid command of the humanities ideas and scholarship that relate to the subject. Applicants for implementation grants should have already done most of the planning for their projects, including the identification of the key humanities themes, relevant scholarship, and program formats. For exhibitions, implementation grants can support the final stages of design development, but these grants are primarily intended for installation. Applicants are not required to obtain a planning grant before applying for an implementation grant. Applicants may not, however, submit multiple applications for the same project at the same deadline. If an application for a project is already under review, another application for the same project cannot be accepted. The goals of Interpreting America's Historic Places are to enhance lifelong learning in American history by connecting significant events, people, ideas, stories, and traditions with specific places; foster the development of interpretive programs for the public that address central events, themes, and issues in American history; and encourage consultation with humanities scholars and history organizations in the development of heritage tourism destinations. Interpreting America's Historic Places projects should interpret a place that played a significant role in American history; enrich the visitor experience at one or more historic places by interpreting these places in light of broader themes in American history; make use of the specific features of one or more historic places—the site, its location, buildings, or other natural or built features—as integral parts of the proposed interpretation; build on sound humanities scholarship; involve humanities scholars in all phases of development and implementation; approach the subject thematically, analytically, and interpretively through an appropriate variety of perspectives; interest broad audiences; and employ appealing and accessible program formats that will actively engage the public in learning. To ensure that the humanities ideas are well conceived, projects must use a team of scholars who represent major fields relevant to the subject matter and offer diverse perspectives and approaches. Projects may also include other participants with experience and knowledge appropriate to the project's formats or technical requirements.

Eligible Applicants

State governments
City or township governments
Special district governments
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education

Description

America's Historical and Cultural Organizations grants support projects in the humanities that explore stories, ideas, and beliefs that deepen our understanding of our lives and our world. The Division of Public Programs supports the development of humanities content and interactivity that excite, inform, and stir thoughtful reflection upon culture, identity, and history in creative and new ways. Grants for America's Historical and Cultural Organizations should encourage dialogue, discussion, and civic engagement, and they should foster learning among people of all ages. To that end, the Division of Public Programs urges applicants to consider more than one format for presenting humanities ideas to the public. Planning grants are available for projects that may need further development before applying for implementation. This planning can include the identification and refinement of the project's main humanities ideas and questions, consultation with scholars in order to strengthen the humanities content, preliminary audience evaluation, preliminary design of the proposed interpretive formats, beta testing of digital formats, development of complementary programming, research at archives or sites whose resources might be used, or the drafting of interpretive materials. America's Historical and Cultural Organizations grants support projects that are presented in these formats: traveling exhibitions that are presented at multiple venues; long-term exhibitions at one institution; interpretive Web sites or other digital formats; interpretation of historic places or areas; reading and discussion programs; panel exhibitions that travel widely, reach a broad audience, and take advantage of complementary programming formats (e.g., reading and discussion series, radio, or other media) to enhance the visitor experience; or other project formats that creatively engage audiences in humanities ideas. Applications that make innovative use of emerging technologies are encouraged. Projects must do more than simply provide a digital archive of material. They should offer new ways of contextualizing and interpreting information that engages public audiences interactively. Applications may, for example, include plans to create PDA tours and resources, podcasts, virtual environments, wiki formats, other formats that utilize user-generated content, virtual imaging, GIS mapping, online scholar-led discussions, streaming video, games, or other digital formats. When it is relevant, applications must explain how user-generated postings to public cyberspace will be vetted by qualified scholars or project staff for accuracy and public educational value. Digital components must rest on sound humanities scholarship and enhance the project's humanities content for the general public in ways that take unique advantage of the proposed formats.

National Science Foundation

NSF To Help Improve Academic Research Facilities

http://www.nsf.gov/news/news_summ.jsp?cntn_id=114656&org=NSF&from=news

The National Science Foundation (NSF) today announced a new solicitation in a program to fund repairs and renovations at the nation's academic research facilities. The grant program is part of the American Recovery and Reinvestment Act (ARRA).

NSF Announces \$200 Million Funding for Research Instrumentation

http://www.nsf.gov/news/news_summ.jsp?cntn_id=114641&org=NSF&from=news

The National Science Foundation today announced a special opportunity for funding projects that strengthen the research infrastructure in the nation's science and engineering research and education institutions. Funding of \$300 million was provided for the Major Research Instrumentation (MRI) program through the American Recovery and Reinvestment Act (ARRA), signed into law by President Barack Obama in February 2009.

Major Research Instrumentation Program (MRI-R²) Recovery and Reinvestment

Program Solicitation NSF 09-561

<http://www.nsf.gov/pubs/2009/nsf09561/nsf09561.pdf>

The Major Research Instrumentation (MRI) program is announcing a call for proposals that is separate from the standard January submission deadline. Awards made in response to this solicitation will be funded under the American Recovery and Reinvestment Act of 2009 (ARRA)

(Public Law 111-5), and have special award conditions. Unless otherwise specified, ARRA funding should be considered one-time funding.

For full solicitation: [Click here](#).

Academic Research Infrastructure Program: Recovery and Reinvestment Grant

Academic Research Infrastructure Program: Recovery and Reinvestment (ARI-R²)

Program Solicitation NSF 09-562

http://www.nsf.gov/pubs/2009/nsf09562/nsf09562.htm?govDel=USNSF_25

The ARI-R² program will invest in the repair, renovation, or in exceptional cases, the replacement of existing research facilities. It will not support the construction of new research facilities.

Award Floor:	\$250,000
CFDA Number(s):	47.082 -- Trans-NSF Recovery Act Research Support
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

*Organization Limit: Proposals may only be submitted by the following: - Universities and two- and four-year colleges (including community colleges) accredited in, and having a campus located in, the United States, its territories and possessions. Distinct academic campuses (that award their own degrees, have independent administrative structures, admissions policies, alumni associations, etc.) within multi-campus systems qualify as separate institutions. Independent non-profit research museums, independent non-profit research institutions and laboratories, and non-profit research consortia located in the United States, its territories and possessions. These organizations must have an independent administrative and financial structure. Non-profit research consortia must also have 501(c)(3) tax status. Any organization can collaborate in a consortium; however, only eligible organizations can receive NSF funds. Organizations that may NOT receive funds include foreign organizations (e.g., foreign academic institutions, museums and laboratories); research arms of for-profit firms; and Federally Funded Research and Development Centers (FFRDCs). Construction, engineering, architecture and other facility service divisions of for-profit firms that will carry out the work of renovation and repair may receive NSF funds as sub-awards. The American Recovery and Reinvestment Act of 2009 states that funds may not be used by any State or local government, or any private entity, for any casino or other gambling establishment, aquarium, zoo, golf course, or swimming pool.

Agency Name

National Science Foundation

Description

Scientific discoveries are emerging at an accelerated pace, presenting new frontiers for exploration, stimulating innovation and economic growth, and driving the development of new tools and systems to support research. Likewise, the convergence of disciplines and the cross-fertilization that characterized contemporary science and engineering have made collaboration a centerpiece of the 21st century science and engineering enterprise. As new scientific opportunities and processes have emerged, the Nation's research facility requirements have also evolved and changed. In 2005, NSF estimated that academic institutions then had at least \$3.6 billion in deferred projects to repair and renovate science and engineering research facilities (FY05 Survey of Science and Engineering Research Facilities.) As a result of the American Recovery and Reinvestment Act of 2009, NSF will invest \$200 million in the Nation's research facilities and research training infrastructure. This investment will advance the science and engineering research enterprise at many institutions. The purpose of this program is to enhance the Nation's existing research facilities where sponsored and/or unsponsored research activities and research training take place to enable next-generation research infrastructure that integrates shared resources across user communities. Consistent with NSF's mission to strengthen the U.S. science and engineering enterprise, the ARI-R² program will: Update existing research facilities at institutions of higher education (including graduate and undergraduate institutions, among which are included community colleges) and other non-profit research organizations (e.g., independent research museums, independent research laboratories, and research consortia) in order to support research that can address the challenges of the 21st century. Enable academic

departments, disciplinary and cross-disciplinary units, or multi-organization consortia to renovate research facilities through the addition or augmentation of cyberinfrastructure, other than general-purpose computing systems or data storage systems, to create environments that enhance research and integrate research with education. Improve access to and increase use of next-generation research facilities for researchers, educators and students. Assist research organizations, including those that have historically received limited Federal research and development funds, to improve their science and engineering research environments.

Description

The U.S. Small Business Administration (SBA) has issued Program Announcement No. PRIME-2009-01 to establish a microenterprise training and technical assistance program for disadvantaged microentrepreneurs and to provide training and capacity building grant programs to microenterprise development organizations ("MDOs"). Additionally, the Act authorizes research and development of best practices for microenterprise development and technical assistance programs for disadvantaged entrepreneurs and other activities as the administrator of SBA determines are consistent with the Act. PRIME has several purposes for which SBA will issue separate program announcements soliciting applications geared toward a particular legislative purpose. Program Announcements called for under the Act solicit, from eligible organizations, applications for grant funding to be used to carry out the purposes of the Act. See Program Announcement for complete details. Questions about this program announcement should be directed to the Office of Financial Assistance at prime@sba.gov.

Women's Business Center Initial Grant

Document Type:	Grants Notice
Funding Opportunity Number:	OWBO-2009-01
Opportunity Category:	Discretionary
Posted Date:	Jun 19, 2009
Creation Date:	Jun 19, 2009
Original Closing Date for Applications:	Jul 16, 2009
Current Closing Date for Applications:	Jul 16, 2009
Archive Date:	Jul 17, 2009
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Business and Commerce
Category Explanation:	
Expected Number of Awards:	8
Estimated Total Program Funding:	
Award Ceiling:	\$150,000
Award Floor:	\$0
CFDA Number(s):	59.043 -- Women's Business Ownership Assistance
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Only private non-profit organizations certified under Section 501(c) of the Internal Revenue Code of 1986 that provide technical assistance to small business concerns owned and controlled by women and that meet all other criteria identified in the Program Announcement OWBO-2009-01, Section III: Eligibility Information may apply for this award.

Description

The U.S. Small Business Administration (SBA) has issued Program Announcement OWBO-2009-01 to invite private non-profit organizations certified under Section 501(c) of the Internal Revenue Code of 1986 to start a new, community-based Women's Business Center (WBC) in the following states and territories: District of Columbia, Idaho, Kentucky, Montana, Oregon, Wyoming, Guam, and U.S. Virgin Islands. WBCs provide technical assistance to women entrepreneurs, both nascent and established, in the areas of finance, management, marketing, and other areas as defined in Program Announcement OWBO-2009-01. A representative number of clients served by each WBC must be socially and economically disadvantaged. The WBC may exist within the framework of a larger economic development organization and may make use of the resources provided by that organization, but must be a clearly identifiable separate program or project of that entity. Program authority is detailed in the Small Business Act, Sections 2(h) and 29 (15 U.S.C. Sections 631(h) and 656), as amended. Successful applicants will receive awards in the form of a cooperative agreement for the base year (year one). Four additional option years (years two through five) may be executed, subject to the availability of funding and the WBC's performance during the previous year. Award recipients must provide non-federal matching funds as follows: 1 non-federal dollar for each 2 federal dollars in years one and two and 1 non-federal dollar for each 1 federal dollar in years three through five. Up to 50% of the non-federal matching funds may be in the form of in-kind contributions and at least 50% of non-federal matching funds must be in the form of cash (includes program income).

Small Business Development Center - CY Renewal of the Cooperative Agreement for Current Recipient Organizations Grant

Document Type:	Grants Notice
Funding Opportunity Number:	OSBDC-2010-02
Opportunity Category:	Discretionary
Posted Date:	Jun 02, 2009
Creation Date:	Jun 02, 2009
Original Closing Date for Applications:	Aug 27, 2009 Closing date is August 27, 2009 at 9:00 pm EST
Current Closing Date for Applications:	Aug 27, 2009 Closing date is August 27, 2009 at 9:00 pm EST
Archive Date:	Aug 28, 2009
Funding Instrument Type:	Cooperative Agreement

Category of Funding Activity:	Business and Commerce
Category Explanation:	
Expected Number of Awards:	41
Estimated Total Program Funding:	\$104,500,000
Award Ceiling:	\$6,564,096
Award Floor:	\$611,111
CFDA Number(s):	59.037 -- Small Business Development Center
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

An eligible candidate is an existing SBDC recipient organization currently funded under the Small Business Development Center (SBDC) program for a program year of January to December (Calendar Year-CY). An application submitted by an entity that is not a current lead SBDC will not be considered.

Description

Program Announcement No. OSBDC-2010-02. Note: Program Announcements No. OSBDC-2010-01 (for FY applicants) and No. OSBDC-2010-02 (for CY applicants) are identical in content. U.S. Small Business Administration / Office of Small Business Development Centers (OSBDC) OPENING DATE: June 1, 2009 CLOSING DATE: August 27, 2009 The U.S. Small Business Administration (SBA) plans to issue Program Announcement No.OSBDC-2010-02 to invite applications to renew funding for existing recipient organizations currently funded under the Small Business Development Center (SBDC) program as authorized by Section 21 of the Small Business Act, (15 USC Section 648). Applicants will provide business management and technical assistance, including short and long-term counseling, training to clients who want to start or expand a small business. The SBDC program is the SBA's largest matching grant-funded service delivery network providing high quality business and economic development assistance to small businesses and nascent entrepreneurs in order to promote growth, expansion, innovation, increased productivity and management improvement. The SBDCs, in partnership with SBA's Office of Small Business Development Centers (OSBDC) and SBA District Offices, develop programs and provide business management and other services that enhance the economic development goals and objectives of SBA and their other respective state and local funding partners. The SBDC program is a broad-based system of assistance for the small business community that links the resources of Federal, state, and local governments with those of the educational community and the private sector. Although SBA is responsible for the general management and oversight of the SBDC program, a partnership exists between SBA and the recipient organization to effectuate the delivery of assistance to the small business community. Award recipients must provide non-Federal matching funds at the rate of one non-Federal dollar for each Federal dollar. Up to one-half of the non-Federal match funds may be in the form of in-

kind contributions but at least 50% of match must be in cash. Questions about this program announcement should be directed to the Office of Small Business Development Centers at the SBA, at (202)205-6766. Note: Program Announcements No. OSBDC-2010-01 (for FY applicants) and No. OSBDC-2010-02 (for CY applicants) are identical in content.

Eligible Applicants

State governments

Additional Information on Eligibility:

State or local governments or transit agencies on a competitive basis.

Description

The synopsis for this grant opportunity is detailed below, following this paragraph. This grant opportunity is being funded by the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, 123 Stat.115 (Feb. 17, 2009) ("Recovery Act"). This synopsis contains all updates to this document that have been posted as of April 30, 2009. If updates have been made to the opportunity synopsis, update information is provided below the synopsis. All individuals and organizations potentially interested in this grant opportunity are responsible for frequently MONITORING this website AND the Department's TIGER Grants website for any AMENDMENTS to this notice. Such Amendments could contain crucial information. The Department's TIGER Grants website is <http://www.dot.gov/recovery/ost/>. Document Type: Grants Notice Funding

Opportunity Number: DTOS59-09-RA-TIGER Opportunity Category: Discretionary
Posted Date: May 1, 2009 Creation Date: May 1, 2009 Original Closing Date for Applications: To be determined. The Department is in the process of developing criteria and requirements for this program. Additional information will be available when the Department publishes a full announcement. Current Closing Date for Applications: To be determined. The Department is in the process of developing criteria and requirements for this program. Additional information will be available when the Department publishes a full announcement. Archive Date: November 30, 2010 Funding Instrument Type: Grant Category of Funding Activity: Surface Transportation Expected Number of Awards: To be determined. The number of awards will be determined after evaluating all Applications. Estimated Total Program Funding: \$1,500,000,000. Of this amount, the Department may use an amount not to exceed \$200,000,000 for the purpose of paying the subsidy and administrative costs of projects eligible for federal credit assistance under chapter 6 of title 23, United States Code, if the Department finds that such use of the funds would advance the purposes of this program. In addition, the Department may retain up to \$1,500,000, and may transfer portions of those funds to the Administrators of the Federal Highway Administration, the Federal Transit Administration, the Federal Railroad Administration, and the Maritime Administration, to fund the award and oversight of grants made under this program. Award Ceiling: \$300,000,000 per project. Award Floor: \$20,000,000 per project. The Department may waive the \$20,000,000 minimum grant size for the purpose of funding significant projects in smaller cities, regions, or States. CFDA Number(s): 20.932 Cost Sharing or Matching Requirement: The Federal share of the costs for which an expenditure is made under this program may be up to 100 percent, however, the Department will give priority to projects that require a contribution of Federal funds in order to complete an overall financing package. Eligible Applicants The funds provided under this program will be awarded to State or local governments or transit agencies on a competitive basis. Recipients of Recovery Act funds and their first tier sub-awardees will be required to have a DUNS number (www.dnb.com) and a current registration in the Central Contractor Registration (www.ccr.gov). Recipients of Recovery Act funds must have systems and internal controls that allow them to separately track and report Recovery Act funds even if the funds are being used to fund an existing project/activity. Additional Information on Eligibility: The Department is in the process of developing criteria and requirements for this program. Additional information will be available when the Department publishes a full announcement. Agency Name Office of the Assistant Secretary for Transportation Policy, Office of the Secretary, U.S. Department of Transportation. Description The Office of the Secretary, through the Office of the Assistant Secretary for Transportation Policy (OST-P), announces a Request for Applications under a competitive discretionary grant program that provides capital investments for surface transportation infrastructure. The program is funded by the American Recovery and Reinvestment Act of 2009, Pub. L. 111-5, 123 Stat. 115 (Feb. 17, 2009) ("Recovery Act"). Under this program, \$1,500,000,000 is available through September 30, 2011, for the Department to make grants on a competitive basis for projects that will have a significant impact on the Nation, a metropolitan area, or a region. Projects eligible for funding provided under this program include, but are not limited to, highway or bridge projects eligible under title 23, United States Code, including interstate rehabilitation, improvements to the rural collector road system, the reconstruction of overpasses and interchanges, bridge replacements, seismic retrofit projects for bridges, and road realignments; public transportation projects eligible under chapter 53 of title 49, United States Code, including investments in projects participating in the New Starts or Small Starts programs that will expedite the completion of those projects and their entry into revenue service; passenger

and freight rail transportation projects; and port infrastructure investments, including projects that connect ports to other modes of transportation and improve the efficiency of freight movement. The Department may also use an amount not to exceed \$200,000,000 for the purpose of paying the subsidy and administrative costs of projects eligible for federal credit assistance under chapter 6 of title 23, United States Code, if the Department finds that such use of the funds would advance the purposes of this program. In distributing funds available under this program, the Department must take measures to ensure an equitable geographic distribution of funds and an appropriate balance in addressing the needs of urban and rural communities. Grants provided under this program shall generally be not less than \$20,000,000 and not greater than \$300,000,000; however, the Department may waive the \$20,000,000 minimum grant size for the purpose of funding significant projects in smaller cities, regions, or States. Not more than 20 percent of the funds made available under this program will be awarded to projects in a single State. The Federal share of the costs for which an expenditure is made under this program may be up to 100 percent, however, the Department will give priority to projects that require a contribution of Federal funds in order to complete an overall financing package, and to projects that are expected to be completed by February 17, 2012. Projects conducted using funds provided under this program must comply with the requirements of subchapter IV of chapter 31 of title 40, United States Code. Recipients will be required to comply with all of the applicable reporting requirements under the Recovery Act. The Department is in the process of developing criteria and requirements for this program. Additional information about criteria and requirements will be available when the Department publishes a full announcement. Link to Full Announcement The Department is in the process of developing criteria and requirements for this program. The criteria and requirements will be included in the full announcement. The full announcement will be available on the Department's TIGER Grants website at <http://www.dot.gov/recovery/ost/>. Additional Department information related to the Recovery Act is available at <http://www.dot.gov/recovery/>. If you have difficulty accessing the full announcement electronically, please contact: Jim Mowery at james.mowery@dot.gov [_____] Synopsis Modification History There are currently no modifications for this opportunity.

Pipeline & Hazardous Material Safety Administration PHMSA 2010 Hazardous Liquid Base Grant

Document Type:	Grants Notice
Funding Opportunity Number:	DOT-PH-PHP-10-HL
Opportunity Category:	Discretionary
Posted Date:	Jun 22, 2009
Creation Date:	Jun 22, 2009
Original Closing Date for Applications:	Sep 30, 2009
Current Closing Date for Applications:	Sep 30, 2009
Archive Date:	Mar 01, 2010
Funding Instrument Type:	Grant
Category of Funding Activity:	Transportation
Category Explanation:	

Expected Number of Awards:
Estimated Total Program Funding:
Award Ceiling:
Award Floor:
CFDA Number(s): 20.700 -- Pipeline Safety
Cost Sharing or Matching Requirement: No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

This grant opportunity is only open for state agencies that have a certification or agreement with the Pipeline and Hazardous Materials Safety Administration (PHMSA) to do pipeline safety inspections.

Description

This grant opportunity is only open for states that have a certification or agreement with PHMSA to do pipeline safety inspections. The U.S. Department of Transportation's Pipeline and Hazardous Material Safety Administration (PHMSA), administers the national regulatory program to assure safe transportation of natural gas, petroleum, and other hazardous materials by pipeline. The Natural Gas Pipeline Safety Act of 1968 as amended (NGPSA) authorizes the Department to regulate pipeline transportation of natural (flammable, toxic, or corrosive) gas and other gases as well as the transportation and storage of liquefied natural gas (LNG). This Act has been recodified as 49 U.S.C. Chapter 601. PHMSA is authorized to reimburse a state agency up to 50 percent of the actual costs for carrying out its pipeline safety program, including the cost of personnel and equipment. The actual amount of Federal reimbursement depends upon the availability of appropriated funds and state program performance. The estimated total program funding is not yet available for State Program Natural Gas and Hazardous Liquid Base Grants and will be distributed according to individual state applications.

Description

IRS is authorized to enter into agreements with private or non-governmental public non-profit agencies or organizations, exempt under Section 501 of the Internal Revenue Code, that will provide training and technical assistance to volunteers who provide free tax counseling and assistance to elderly individuals in the preparation of their Federal income tax returns. Grant funds are used to reimburse volunteers for out-of-pocket expenses including transportation, meals, and other expenses incurred by them in providing tax counseling assistance at locations convenient to the taxpayers.
